

ACKNOWLEDGMENT

Purifying my inner self with the dust of lotus like feet of my spiritual master (all ultimate venerable shri Ashutosh Jee Maharaj), I describe the shine glory of raghuwar Shri Ram which gives us four fold fruits: duty money, desire and salvation. Fully aware of the deficiency of my intelligence, I concentrate my attention on Hanuman Jee Maharaj which impart me intelligent strength and education (true knowledge) to relieve me from all blemishes that causes pain and removes all kinds of impurities whatever inside us.

With deep regards and profound respect, I avail this opportunity to express my deep sense of gratitude to my supervisor Prof. S. K. Shukla who suggested this project and generously gave guidance throughout this work. I express my sincere gratitude to him for their cordial support and providing me top class research environment and facilities without which the research work was almost impossible. It would not have been possible to complete this doctoral thesis without the guidance of my Ph.D. supervisor. He helped me in every way. He has given me a lot of companions in a bad time also. It's my good luck that I got a chance to work under him and able to submit my Ph.D. thesis. Sometimes, I used to feel a little bit scared while doing research work but the guidance of my supervisor highlighted my goodness and speed up my Ph.D work to submit the thesis at the right time. Therefore, I bow down to my supervisor for their sea of graces and blessings that can never be forgotten in future.

I would like to express my deepest gratitude to my co-supervisor Dr. J. V. Tirkey their valuable suggestion and regards.

My Special thanks to RPEC members, Prof. S.K. Shukla (Chairman), Dr. J. V. Tirkey (Co-supervisor), Dr. S. S. Mondal (Internal expert) and prof. S. B. Dwivedi (External expert) for their best research evaluation. I express my sincere and honest gratitude to Prof. A. K. Jha for their cordial support and inspiration.

I would also like to give my special thanks to staff, laboratory colleagues and

workshop workers (Ram Jee) of the Department for their assistant and support during the years of my study and research. We gratefully acknowledge the MHRD, New Delhi for the financial support to conduct the present research. I acknowledge the cultural and spiritual environment of Varanasi for their mental support. I also acknowledge the importance of my friends and research scholars for their kindness and sharing their happiness and sorrow during my research work.

Finally, my most sincere and very heartfelt thanks to my father, Shrikant Thakur, mother, Mrs. Sochita Devi and my rest of the family members who have been utmost supportive to me in my life and help me become today what I am. I'd like to give my wholehearted thanks to my loving wife, Lovely Bharti for her great sacrifice and unconditional support. I also thank my guileless brother, Ranjan Kumar Thakur and caring Bhabhi, Dropadee Kumari for their devoted love and respect during my research work.

Finally, I am thankful to each and every person who helped and supported me during this research Endeavour. My God bestow health and happiness to all of them.

Arun Kumar

Research Scholar
