

List of Tables

Table No	Title	Page
1.1	Prediction of world renewable energy use by type [8]	4
2.1	Survey of solar receiver of PTCs based on geometry and their performances	52
3.1	The input parameters used in the present experimental analysis	73
3.2	The collective specifications of experimental setup	75
3.3	The collective specifications of experimental setup	76
3.4	Environmental data for the month of April 24, 2017	83
3.5	Experimental observations with vacuum of 10 torr at annular space of receiver for the month of April 24, 2017	84
3.6	Comparison straight tube receiver versus helical coil tube receiver	89
3.7	Convective heat transfer coefficient and thermal efficiency of helical coil tube	90
3.8	Uncertainties in the experiment	91
4.1	Determining the Mode of Heat Transfer[155]	101
4.2	Heat Transfer Coefficients and Constants for Each Annulus Gas[158]	104
4.3	Estimates of Effective Optical Efficiency Term[165]	110
4.4	Comparison of experimental results with the results obtained from numerical model	122

4.5	Present experimental results versus SNL Test results (1994)	123
4.6	Performance model results versus experimental results	124
A.1	Environmental data for the month of March 1, 2017	184
A.2	Environmental data for the month of March 10, 2017	185
A.3	Environmental data for the month of March 20, 2017	186
A.4	Environmental data for the month of March 30, 2017	187
A.5	Environmental data for the month of April 1, 2017	188
A.6	Environmental data for the month of April 10, 2017	189
A.7	Environmental data for the month of April 20, 2017	190
A.8	Environmental data for the month of April 30, 2017	191
A.9	Environmental data for the month of May 1, 2017	192
A.10	Environmental data for the month of May 10, 2017	193
A.11	Environmental data for the month of May 20, 2017	194
A.12	Environmental data for the month of May 31, 2017	195
A.13	Environmental data for the month of June 1, 2017	196
A.14	Environmental data for the month of June 10, 2017	197
A.15	Environmental data for the month of June 30, 2017	198
A.16	Environmental data for the month of January 3, 2017	199
A.17	Environmental data for the month of February 26, 2017	200
A.18	Environmental data for the month of February 27, 2017	201
A.19	Environmental data for the month of February 28, 2017	202
A.20	Environmental data for the month of November 18, 2017	203
A.21	Environmental data for the month of November 18, 2017	204
A.22	Experimental data without vacuum at annular space of receiver for the month of April 25, 2017	205
A.23	Experimental data with a vacuum pressure of 260 torr at annular space of receiver for the month of April 11, 2017	206
A.24	Experimental data with a vacuum pressure of 10 torr at annular space of receiver for the month of April 24, 2017	207

A.25	Experimental data with a vacuum pressure of 660 torr at annular space of receiver for the month of May 5, 2017	208
A.26	Experimental data with a vacuum pressure of 60 torr at annular space of receiver for the month of May 14, 2017	209
