

Table 2.1 Exact and approximate values of temperature distribution $\theta(x,t)$ for different $x$ at $\alpha_0 = 1$ and $t = 1$ .	28
Table 2.2 Exact and approximate values of moving boundary $s(t)$ for different time at $\alpha_0 = 1$ .	28
Table 3.1 Comparison of the exact values of temperature $\theta_E$ and approximate values of temperature $\theta_A$ at $p = q = 1$ and $Ste = 0.5$ .	43
Table 3.2 Comparison of the exact values of moving boundary $s_E(t)$ and approximate values of moving boundary $s_A(t)$ at $p = q = 1$ and $Ste = 0.5$ .	43
Table 4.1 Comparison of the exact temperature $\theta_E$ with approximate values of temperature $[\theta_T]_N$ for $N=3,4,5$ at $\beta = 0$ .	58
Table 4.2 Comparison of the exact values of moving boundary $s_E(t)$ and approximate values of moving boundary $[s_T(t)]_N$ for $N=3,4,5$ at $\beta = 0$ .	59
Table 4.3 Comparisons of different values of exact temperature $[\theta_E]$ and approximate temperatures $([\theta_T], [\theta_C])$ .	60
Table 4.4 Comparisons of different values of exact position of moving boundary $s_E(t)$ and approximate position of moving boundary $([s_T(t)], [s_C(t)])$ .	61
Table 5.1 Comparison between exact value $T_E(x,t)$ and numerical value $T_N(x,t)$ of temperature distribution at $\gamma = 20$ .	73
Table 5.2 Comparison between exact value $s_E(t)$ and numerical value $s_N(t)$ of moving interface at $\gamma = 25$ .	74
