

ACKNOWLEDGEMENT

The completion of the work for this thesis represents the opportunity to remember numerous individuals who have influenced my attitude towards Ph.D. studies. I would like to acknowledge my debt to my professors, family, and friends.

First and foremost, I would like to express my immense gratitude to my supervisor **Prof. (Dr.) R.K. Saket**, who has not only given me a platform to work on my favorite research topic but also through his sheer dedication, patience, stimulating suggestions and serene discussions, motivated me to improve my work and come up with different ideas. The completion of this thesis would not be possible without his guidance and persistent help during my research work. His fatherly nature is the source of my inspiration and is the driving force that keeps me always on track to achieve my goal. Thanks, sir, for making my life meaningful on this planet.

I am highly indebted to my Co-supervisor, **Dr. R. Rajendran**, Propulsion Division, CSIR-National Aerospace Laboratories, Bangalore for his valuable suggestion to complete this thesis work. My profound gratitude to **Prof. (Dr.) D. Singh**, Head of Department of Electrical Engineering, Indian Institute of Technology (Banaras Hindu University), Varanasi for providing effective management, necessary facilities and valuable suggestions for the success of this work.
