

## LIST OF FIGURES

---

<b>Figure 1.1:</b> Sample images from BrainWeb Database.....	2
<b>Figure 1.2:</b> Sample images from Real Databases.....	4
<b>Figure 3.1:</b> Simulated T1 weighted MR image with Rician noise (a) Original image (b) 10% noisy image (c) BM3D (d) MF (e) AWF (f) NLM (g) Fuzzy filter (h) Proposed..	43
<b>Figure 3.2:</b> PSNR based comparison of various methods: (a) T1-weighted modality (b) T2-weighted modality (c) PD-weighted modality and SSIM based comparison of various methods: (d) T1-weighted modality (e) T2-weighted modality (f) PD-weighted modality.....	47
<b>Figure 3.3:</b> Simulated T1 weighted MR image with Rician noise (a) Original image (b) 10% noisy image (c) BM3D (d) MF (e) AWF (f) NLM (g) Fuzzy filter (h) Proposed..	54
<b>Figure 3.4:</b> PSNR based comparison of various methods: (a) T1-weighted modality (b) T2-weighted modality (c) PD-weighted modality and SSIM based comparison of various methods: (d) T1-weighted modality (e) T2-weighted modality (f) PD-weighted modality.....	57
<b>Figure 4.1:</b> Simulated T1 weighted MR image (a) Noise free MR image (b) 15% noisy MR image (c) Rayleigh (green), Rician (Blue) and Gaussian (Red) noise at different SNR level in MRI.....	63
<b>Figure 4.2:</b> Restoration of MRI for Gaussian and Rician noise distribution with ODAAFDF prior.....	68
<b>Figure 4.3:</b> Selection of prior term.....	69
<b>Figure 4.4:</b> Simulated T1 weighted MR image with noise (a) Gaussian and Rician noise corrupted MR image (b) Restored image with proposed method from Gaussian noise (c) Restored image with proposed method from Rician noise.....	74

<b>Figure 4.5:</b> PSNR based comparison of various methods: (a) T1-weighted modality (b) T2-weighted modality (c) PD-weighted modality and RMSE based comparison of various methods: (d) T1-weighted modality (e) T2-weighted modality (f) PD-weighted modality.....	77
<b>Figure 5.1:</b> Restoration of MRI for different noise distribution with different priors...	86
<b>Figure 5.2:</b> Selection of prior terms.....	87
<b>Figure 5.3:</b> Simulated T1 weighted MR image with Rician noise (a) Original image (b) 10% noisy image (c) RLMMSE (d) RSNLMMSE (e) LMMSE (f) Proposed with TV (g) Proposed with AD (h) Proposed with CD.....	93
<b>Figure 5.4:</b> Simulated T1 weighted MR image with Gaussian and Rayleigh noise (a) Gaussian noise corrupted MR image (b) Restored image with proposed method from Gaussian noise corrupted MR image (c) Rayleigh noise corrupted MR image (d) Restored image with proposed method from Rayleigh noise corrupted MR image.....	94
<b>Figure 5.5:</b> SSIM based comparison of various methods: (a) T1-weighted modality (b) T2-weighted modality (c) PD-weighted modality and MSE based comparison of various methods: (d) T1-weighted modality (e) T2-weighted modality (f) PD-weighted modality.....	97
