.....It is impossible to start with a specific name ...

It is very difficult to name all the sources of inspiration, moreover, words are often too feeble a mode of revealing one's sentiments and feelings of indebtedness. At the outset, I would like to take this opportunity to express my deep sense of gratitude to my research supervisor, **Prof. Sandip Chatterjee** and **Prof. Deba Prasad Giri**, for introducing me to the field of Condensed Matter Physics and to witness the enormous progress made in this fascinating field of study.
