

LIST OF TABLES

Table No.	Table Title	Pg. No.
2.1	Reported preclinical observations made with diverse types of <i>Curcuma longa</i> extracts	17
2.2	Some reported pharmacological activities of Curcumin	19
2.3	Marketed major formulations containing <i>Curcuma longa</i> extracts	21
2.4	Marketed major formulations containing curcumin	25
4.1	Effect of 95.4% curcuminoids containing <i>Curcuma longa</i> extract (CLE-3R) and metformin on body weight difference of male mice on day 5	105
4.2	Effect of 95.4% curcuminoids containing <i>Curcuma longa</i> extract (CLE-3R) and metformin on body weight difference of male mice on day 7	105
4.3	Effect of 95.4% curcuminoids containing <i>Curcuma longa</i> extract (CLE-3R) and metformin on body weight difference of male mice on day 10	106
4.4	Effect of 95.4% curcuminoids containing <i>Curcuma longa</i> extract (CLE-3R) and metformin on body weight difference of female mice on day 5	106
4.5	Effect of 95.4% curcuminoids containing <i>Curcuma longa</i> extract (CLE-3R) and metformin on body weight difference of female mice on day 7	107
4.6	Effect of 95.4% curcuminoids containing <i>Curcuma longa</i> extract (CLE-3R) and metformin on body weight difference of female mice on day 10	107
4.7	Effect of 95.4% curcuminoids containing <i>Curcuma longa</i> extract (CLE-3R) and metformin on tail suspension test in male mice	108
4.8	Effect of 95.4% curcuminoids containing <i>Curcuma longa</i> extract (CLE-3R) and metformin on tail suspension test in female mice	108
4.9	Effect of 95.4% curcuminoids containing <i>Curcuma longa</i> extract (CLE-3R) and metformin on pentobarbital induced sleep test in male mice	109
4.10	Effect of 95.4% curcuminoids containing <i>Curcuma longa</i> extract (CLE-3R) and metformin on pentobarbital induced sleep test in female mice	109
4.11	Effect of 95.4% curcuminoids containing <i>Curcuma longa</i> extract (CLE-3R) and metformin on glucose, insulin and corticosterone level in non-stressed and stressed male rats	110

4.12	Effect of 95.4% curcuminoids containing <i>Curcuma longa</i> extract (CLE-3R) and metformin on organ weight of stressed male rats	110
4.13	Effect of 95.4% curcuminoids containing <i>Curcuma longa</i> extract (CLE-3R) and metformin on hot plate reaction time of saline and formalin injected male rats	111
4.14	Effect of 95.4% curcuminoids containing <i>Curcuma longa</i> extract (CLE-3R) and metformin on ratio of HDL and LDL of normal drinking water and fructose water consuming male rats	111
4.15	Effect of 95.4% curcuminoids containing <i>Curcuma longa</i> extract (CLE-3R) and metformin on organ weight of normal drinking water and fructose water consuming male rats	112
4.16	Effect of 95.4% curcuminoids containing <i>Curcuma longa</i> extract (CLE-3R) and metformin on immobility time period of normal and stressed diabetic rats in forced swim test.	112
4.17	Effect of 95.4% curcuminoids containing <i>Curcuma longa</i> extract (CLE-3R) and metformin on stomach ulceration index in normal and stressed diabetic rats	113
