The authors regret that the expressions for non-dimensional pressure  $p' = \frac{p}{\mu_0 \lambda c} a^{n+1}$  and Reynolds number  $Re = \frac{a^{n+1} c \rho}{\lambda \mu_0}$  in equation (1) on page number 12 have some typo errors; they should be replaced by  $p' = \frac{p}{\mu_0 \lambda c^n} a^{n+1}$  and  $Re = \frac{a^{n+1} c^{2-n} \rho}{\lambda \mu_0}$  respectively.

The authors would like to apologise for any inconvenience caused.
