

## LIST OF FIGURES

Figure No.	Figure captions	Page No.
1.	A comparison between stages of normal wound healing following acute wound and chronic wounds	8
2.	Phases of wound healing	12
3.	Plant of <i>Leea macrophylla</i> Roxb. ex Hornem.	44
4.	Phytoconstituents present in <i>Leea macrophylla</i> leaves	47
5.	(A) Rat showing full thickness paravertebral incisions of the skin on either side of the vertebral column. (B) Incision wound closer by the interrupted suture	84
6.	Measurement of wound breaking strength on 10 <sup>th</sup> day post incision wound by self-made tensometer	85
7.	Excision wound created in rat	86
8.	Root tubers of <i>Leea macrophylla</i> (Leeaceae)	118
9.	Transverse section of root tuber without staining.	118
10.	Microscopy of <i>Leea macrophylla</i> root tubers	119
11.	Powder characteristics (A-G) and maceration (H-K) study of <i>Leea macrophylla</i> root tuber.	120
12.	DNA fingerprinting profile of the plant	123
13.	3D- response surface plots by Design Expert explaining the extractive process	126
14.	HPLC chromatogram of ethanolic extract of <i>Leea macrophylla</i>	130
15.	Chlorogenic Acid	130
16.	A) Total antioxidant activity (B) Assay of Reducing Power of ethanolic extract of <i>Leea macrophylla</i> extract and successive fractions.	131

17.	Radical scavenging activity of ethanolic extract of <i>Leea macrophylla</i> and its successive fractions	133
18.	Physicochemical characteristics and surface morphology of bioadhesive gel of ethanolic extract of <i>Leea macrophylla</i> .	137
19.	Effect of oral and topical treatment of ethanolic extract of <i>Leea macrophylla</i> on breaking strength in rats	140
20.	Effect of oral and topical treatment of ethanolic extract of <i>Leea macrophylla</i> on wound area	141
21.	Images of excision wound with oral and topical treatment of ethanolic extract of <i>Leea macrophylla</i>	142
22.	Effect of oral and topical treatment of ethanolic extract of <i>Leea macrophylla</i> on (A) Epithelisation period and (B) Scar area	144
23.	Effect of oral and topical treatment of ethanolic extract of <i>Leea macrophylla</i> on (A) wet tissue weight (B) dry tissue weight (C) wet tissue protein and (D) dry tissue protein	145
24.	Effect of oral and topical treatment of ethanolic extract of <i>Leea macrophylla</i> on antioxidants, free radicals and collagen determinants	148
25.	Effect of oral and topical treatment of ethanolic extract of <i>Leea macrophylla</i> on (A) IL-1 $\beta$ (B) IL- 6 (C) TNF $\alpha$ and (D) VEGF.	150
26.	Effect of oral and topical treatment of ethanolic extract of <i>Leea macrophylla</i> on cellular proliferation. Ki67 in rat wound was determined by Western blot at indicated days. The IOD (integration optical density) of Ki67 protein band was calibrated using $\beta$ -actin.	151
27.	Histopathological view of excision wound on 10 <sup>th</sup> post-operative day with oral and topical treatment of ethanolic extract of <i>Leea macrophylla</i>	152
