

Acknowledgements

It is my privilege to express my gratitude to Bharat Ratna Madan Mohan Malviya ji for his untiring effort to create this holy place of study "Banaras Hindu University".

I owe my deepest gratitude and obligation to my supervisor Prof. Sushil K. Singh, and co-supervisor Dr. Ashok Kumar for their constant motivation, support, valuable suggestions and ideas. I am thankful for their supervisory meetings and masterful work schedules to complete my thesis work within the time frame.

I immensely express my profound gratitude to Prof. P. K Jain , Director, Indian Institute of Technology (Banaras Hindu University), Varanasi and Deans of the institute for providing the basic amenities and sophisticated instrumental facilities for smooth conduct of research.

I would like to recognize and thank my Research Progress and Evaluation Committee (RPEC) members Prof. S.H Hasan, Department of Chemistry, and Dr. Shreyans Kumar Jain of the department for valuable advice and constructive criticism during evaluation of my research progress. It definitely helped me to proceed in right direction. I render my sincere thanks to Prof. B. Mishra, former Head of the Department and Prof. Sanjay Singh, Head of the Department for giving me an opportunity to conduct research in the department and for providing necessary amenities required for my research work.

I would like thank Prof. Sairam Krishnamurthy and his lab. members for support in performing *in-vivo* experiments. I am also thankful to Prof. A. K. Srivastava, Prof. S. K. Shrivastava, Prof. (Mrs.) S. Hemalatha, and rest of all faculty members of the Department for their support and encouragement.

I am thankful to Prof. George M. Martin, University of Washington for providing MC65 cell. I express my sincere thanks to Prof. Michael Hollmann, Receptor Biochemistry, Faculty of

Chemistry and Biochemistry Ruhr University Bochum, Germany for Electrophysiological study.

I also thank all the non-teaching staff of the department, especially Nandlal ji for his assistance in using sophisticated instruments of the department. I would like to thank office staff of the department for their frictionless approach in sending scholarship and contingency bills.

I would like to thank DBT, New Delhi for providing SRF and SERB, New Delhi for providing International Travel Support (ITS) to attend "13th Swiss Course on Medicinal Chemistry in Leysin, Switzerland (07 October, 2018 to 12 October, 2018)" I am grateful to Ministry of Human Resources and Development, Government of India for providing financial assistance in the form of Institute Assistantship (IA) and contingency to carry out the research work.

I would like to thank the entire esteemed lab member in our group. It was good time to have wonderful lab members (Dr. Satheesh Kumar S, Dr. Dileep Kumar, Dr. Meenakshi Singh, Mr. Gopichand Gutti, Mr. Ravindray, Mr. Ankit Ganeshpurkar, Ms. Rayala Swetha, Mr. Chandrim Gayen, Ms. Srabanti Jana, Mr. Subhajit Makar, Mr. Ravi Singh, Mr. Praveen Gore, Mr. Tanmay Saha, Ms. Mahima Beohar and all others), as they extended huge help in performing difficult chemical reactions, cytotoxicity screening, homology modeling *etc.* I am indebted to them for sharing their knowledge and experience with me. I would like to thank my batch mates and all other friends from the department for their unflinching support, care and fun to make my stay more enjoyable.

I would like to thank my mother and father for her unconditional love. They had been my source of support, encouragement, comfort, happiness, protection and lifelong love. I would like to thank my grandfather, family members, wife for their absolute love and support.

Finally, I thank everyone who came across my life like a passing cloud to shower happiness to my life.

Date: 21.01.2019

Place: IIT(BHU), Varanasi
