

ACKNOWLEDGEMENTS

I submit my highest appreciation to my supervisor Prof. K. K. Srivastava for his continuous support, helpful suggestions and invaluable encouragement. His willingness, patience and optimistic attitude could lead to the completion of this research work. Prof. Srivastava was much more than an advisor for me. I am deeply indebted to his continuous supervision, original ideas and excellent guidance.

I also would like to express my deep sense of gratitude and admiration to my co-supervisor Prof. P. K. Mishra for his encouragement. Working under his supervision greatly contributed in improving quality of my research work and in developing my engineering and management skills.

I submit my highest respect to Prof. S. N. Upadhyay Ex- director of IT-BHU and DAE-Raja Ramenna Emeritus Fellow in the Department of Chemical Engineering and Technology, IIT (BHU) for their valuable suggestions and support. His prompt responses and availability despite his constantly busy schedule are worth appreciating. He always helped me in all the technical and non-technical issues during the production of this work.

I also express my thanks to my research program committee members Prof. P. Ahuja, Dr. V. L. Yadav and Dr. P Ghosh for their valuable comments and suggestions on this research work.

I would like to thank Prof. A. S. K. Sinha Head of Department of Chemical Engineering and Technology IIT (BHU) for providing necessary facilities.

I am also thankful to Dr. D. Paul for his support and guidance during installation of experimental setup.

I am very thankful to Mr. Patel, Mr. Verma, Mr. Sachiv, Mr. Mata Prasad, Mr. Dherendra Pandey and Mr. Rajesh for their cooperation and support during experiments.

I would like to express my sincere thanks to my friends Mr. Manish Kumar, Mr. Arvind Kumar and Mrs. Anupama Mishra, their contributions are greatly appreciated.

I would like to thank my junior Mr. Abhishek Gupta and Miss Binita Singh for their substantial role in inspiring me to work in the field of heat exchangers.

I would like to express my thanks to all my friends, all staffs and faculty members of Department of Chemical Engineering and Technology, Indian Institute of Technology (Banaras Hindu University) for a pleasant and memorable experience.

I would like to express my deepest thanks to my parents for their endless support, love and faith. The help and encouragement of my father throughout the research are particularly appreciated. My gratitude is endless to my wife Vandana, without her presence this thesis would not have been possible. I would like to express my deepest thanks to my lucky baby boy and baby girl.

Lastly, thanks to God; for their blessing and helping me to complete my thesis.

Ashish Kumar Pandey
