

# Table of contents

<b>Page No.</b>	
Certificates.....	ii-iv
Acknowledgements.....	vi-vii
Table of Contents .....	viii-xi
List of Figures.....	xii-xiv
List of Tables.....	xv-xvi
List of Abbreviations.....	xvii-xix
Preface.....	xx-xxii
<b>Chapter:1 Introduction.....</b>	<b>1</b>
1.1 General.....	3
1.2 Municipal Solid Waste and leachate.....	6
1.3 Characteristics of leachate.....	8
1.4 Groundwater pollution by MSW landfill leachate.....	9
1.5 Groundwater flow and transport modelling.....	12
1.6 Background of the research problem.....	13
1.7 Objective of the research.....	15
<b>Chapter: 2 Literature review.....</b>	<b>17</b>
2.1 General.....	19
<b>Chapter: 3 Study Area.....</b>	<b>29</b>
3.1 General.....	31
3.2 Geology of study area.....	32

3.3 About MSW dumping sites.....	33
3.4 Ramna study area.....	34
3.5 Karsara study area.....	37
<b>Chapter: 4Materials and Methodology.....</b>	<b>39</b>
4.1 General.....	41
4.2 Flowchart of the methodology.....	42
4.3 Data collection.....	41
4.3.1 Spatial data collection.....	41
4.3.2 Non spatial data collection.....	59
4.4 Software used.....	59
4.5 Analytical methodology for groundwater and leachate testing.....	61
4.6 Physico-chemical parameters analysis.....	61
4.7 Calculation of LPI.....	74
4.8 Calculation of WQI.....	76
4.9 Ground Water Modeling.....	77
4.9.1 Governing equation in groundwater flow modelling.....	78
4.9.2 Groundwater transport modelling.....	79
4.9.3 General methodologies for pollutant transport modelling.....	79
4.9.4 Model Conceptualization.....	80
4.9.5 Model Calibration.....	80

4.9.6 Inputdata for model preparation.....	81
<b>Chapter: 5 Results and Discussions.....</b>	<b>87</b>
5.1 Physico-chemical characteristics of Ramna MSW leachate.....	89
5.2 Physico-chemical characteristics of Karsara MSW leachate.....	91
5.3 Comparative discussion of physico-chemical analysis of Ramna and Karsara MSW leachate.....	93
5.4 Calculation of leachate pollution index (LPI) of Ramna and Karsara MSW dumping Leachate.....	97
5.5 Comparative discussion of LPI of Ramna and Karsara MSW leachate....	100
5.6 Physico-chemical characteristics of groundwater samples around the Ramnadumping site in pre- and post-monsoon period of the year 2015.....	101
5.7 Spatial distribution of observed contaminants in groundwater around the Ramna dumping site.....	103
5.8 Statistical analysis of results of groundwater quality.....	105
5.9 Spatial Analysis of Groundwater Quality around Ramna MSW dumping site by using WQI and LPI in 2016.....	115
5.10 Analysis of groundwater quality using WQI and GIS near the Karsara MSW dumping site, 2016.....	123
5.11 Groundwater modelling at Ramna study area.....	133
5.11.1 Groundwater flow modelling.....	134
5.11.2 Pollutant transport modelling.....	145
5.11.2.1 TDS transport modelling.....	145

5.1.1.2.2 Nitrate transport modelling.....	148
<b>Chapter: 6Conclusions and Suggestions.....</b>	<b>151</b>
6.1 Conclusions.....	153
6.2 Future suggestion.....	156
<b>References.....</b>	<b>158-174</b>
<b>List of Publications.....</b>	<b>175-180</b>
