

## LIST OF FIGURES

---

Figure No.	Description	Page No.
1.1	Remote sensing process	2
1.2	Passive and active remote sensing	3
1.3	The electromagnetic spectrum	6
1.4	The electromagnetic spectrum useful for remote sensing	8
1.5	Interaction of radiation with the Earth surface features	9
1.6	Types of reflection (a) Specular reflection and (b) Diffuse reflection	10
1.7	Spectral reflectance curve of water, soil and vegetation	11
1.8	Digital image representation	12
1.9	Equatorial and Polar orbit	14
1.10	Images of same location of Varanasi city at a spatial resolution of 500 m, 30 m and 10 m	15
1.11	Spectral resolution	16
1.12	Images of same location at a radiometric resolutions of 8, 2 and 1 bits	17
1.13	Surface urban heat islands	22
2.1	Interaction of radiation from atmosphere and land targets	44
3.1	Location maps of study area	51
3.2	Research methodology (flow chart)	53
3.3	Classified map of Bikaner, Hyderabad, Vadodara and Varanasi	68
3.4	The original MODIS LST, Downscaled MODIS LST using Bi-square regression and reference Landsat LST of Bikaner	69
3.5	The original MODIS LST, Downscaled MODIS LST using Bi-square regression and reference Landsat LST of Hyderabad	69
3.6	The original MODIS LST, Downscaled MODIS LST using Bi-square regression and reference Landsat LST of Vadodara	69

3.7	The original MODIS LST, Downscaled MODIS LST using Bi-square regression and reference Landsat LST of Varanasi	70
4.1	Location map of the study areas	77
4.2	RMSE of LST obtained from downscaled MODIS-LST and reference Landsat-LST for Bikaner, Vadodara, Hyderabad and Varanasi	83
4.3	Landsat-LST map of Bikaner, Vadodara, Hyderabad and Varanasi	85
4.4	The original MODIS-LST, Downscaled MODIS-LST obtained using the transfer function $a + b \cdot NDVI2 + c \cdot BI$ and the error in LST map of Bikaner	89
4.5	The original MODIS-LST, Downscaled MODIS-LST obtained using the transfer function $a + b \cdot NDVI2 + c \cdot BI$ and the error in LST map of Hyderabad	90
4.6	The original MODIS-LST, Downscaled MODIS-LST obtained using the transfer function $a + b \cdot NDVI2 + c \cdot NDSI$ and the error in LST map of Vadodara	90
4.7	The original MODIS-LST, Downscaled MODIS-LST obtained using the transfer function $a + b \cdot NDVI2 + c \cdot NDBI + d \cdot EVI2$ and the error in LST map of Varanasi	90
5.1	Location map of the study area	100
5.2	Relation of Sentinel-2A retrieved ISF and the Landsat estimated ISF	104
5.3	Day and Night LST maps of Ahmedabad and Gandhinagar from Landsat 8 TIRS data for the post-monsoon season (31/10/2015 for day time and 01/11/2015 for night time)	105
5.4	Mean day LST for each land cover of Ahmedabad and Gandhinagar	106

	obtained from Landsat 8 data for the post-monsoon season (31/10/2015 for day time and 01/11/2015 for night time)	
5.5	Relation of day and night LST with NDVI (a, b), NDBI (c, d) and ISF (e, f) in Ahmedabad obtained from Landsat 8 data for post-monsoon season (31/10/2015 for day time and 01/11/2015 for night time)	110
5.6	Relation of day and night LST with NDVI (a, b), NDBI (c, d) and ISF (e, f) in Gandhinagar obtained from Landsat 8 data for post-monsoon season (31/10/2015 for day time and 01/11/2015 for night time)	111
5.7	3D scatterplot of (a) day LST with NDVI and NDBI and (b) night LST with NDBI and ISF for Ahmedabad obtained from Landsat data (31/10/2015 for day time and 01/11/2015 for night time)	114
5.8	3D scatterplot of (a) day LST with NDVI and NDBI and (b) night LST with NDBI and ISF for Gandhinagar obtained from Landsat data (31/10/2015 for day time and 01/11/2015 for night time)	114
6.1	Location map of the study area	125
6.2	Classified map of Varanasi for the years 1989, 1997, 2008 and 2018	129
6.3	Percentage of each LULC type in the years 1989, 1997, 2008 and 2018	130
6.4	Urbanisation mapping from the years 1989 to 2018 of Varanasi city	131
6.5	Normalized LST map of the years 1989, 1997, 2008 and 2018 of Varanasi city obtained from Landsat images	132
6.6	Urban heat intensity ratio index (UHIRI) for the years 1989, 1997, 2008 and 2018	133
6.7	Normalized LST statistics of water, vegetation, bare land and urban land covers for years the 1989, 1997, 2008 and 2018	134

6.8	Land cover contribution index (LCCI) for urban land cover from 1989 to 2018	137
6.9	Land cover change map for the period 1989 to 2018	139
6.10	Mean difference in normalized LST for pixels converted from bare land, vegetation to urban	139
7.1	Location map of the study area	144
7.2	NDVI maps for winter, summer and post-monsoon season of years 2001, 2007, 2013 and 2019	149
7.3	UHI maps for winter, summer and post-monsoon season of the years 2001, 2007, 2013 and 2019	150
7.4	SUHI Intensity for winter, summer and post-monsoon season of years 2001, 2007, 2013 and 2019	156
