

## ACKNOWLEDGEMENTS

I would like to express my deepest gratitude to my parents and family for their unfailing warm wishes and their endless support and love that helped me to sail the boat against the gusty winds.

I express my sincere regards to my supervisor Prof. Sanjay Kumar Sharma who was a constant and enthusiastic support throughout my research. Without his constant support, motivation, guidance and encouragement, the completion of this research work would not have been possible. I am very grateful to him for having given me an opportunity to work as his student and for his immense motivation and for sharing knowledge with me.

On the similar veins, I would like to express my sincere gratitude to Dr. G. S. P. Singh my co-supervisor for his encouragement and support.

My thanks are also due to other faculty members and staff of the department who had directly or indirectly helped me in the course of my research.

I gratefully acknowledge the support from the officers of the BCCL who helped me during my multiple field visits of Jharia coal fields.

Special thanks are due to unforgettable Prof. Anupma Prakash for her continuous help, support, cooperation and encouragement throughout my research.
