

LIST OF TABLES

| Table No. | Description | Page No. |
|-----------|---|----------|
| 2.1 | The details specification of Landsat-8 (OLI) satellite data | 42 |
| 2.2 | The spectral band specification of Sentinel -2 (MSI) satellite data | 43 |
| 2.3 | SAR satellite data characteristics | 45 |
| 2.4 | Equations used for the calculation of spectral indices | 64 |
| 3.1 | The details specification of in-situ measurements for wheat crop | 69 |
| 3.2 | The detailed specifications of satellite data | 70 |
| 3.3 | The selected Red-Edge VI and others known vegetation descriptors (V) in MWCM | 73 |
| 3.4 | The optimized model parameters of modified Beer's law | 74 |
| 3.5 | The values of model parameters of different vegetation descriptors (V) used in MWCM | 75 |
| 4.1 | The detailed information of in-situ measurements | 87 |
| 4.2 | Satellite data specifications | 88 |
| 4.3 | Model parameters at VV and VH polarizations | 91 |
| 5.1 | Satellite data specifications | 103 |
| 5.2 | Optimized model parameters | 107 |
| 6.1 | Satellite data specifications | 121 |
| 6.2 | The detailed information of in-situ measurements | 122 |
| 6.3 | Performance indices for retrieval of SM using MWCM in region 1 | 138 |
| 6.4 | Performance indices for retrieval of SM using MWCM at region 2 | 140 |
| 7.1 | The detailed specifications of satellite data | 150 |
| 7.2 | Optimized model parameters value at C - and L - band frequencies | 157 |
