First of all, salutation to Lord Shiva, the reigning deity of holy city Kashi, for making my sojourn fruitful. I bow at the lotus feet of **Bharat Ratna Pandit Madan Mohan Malaviya ji**, founder of the Banaras Hindu University. Living in his abode, I always felt a sense of holiness. The Banaras Hindu University is Pandit Malviyaji's crowning achievement. It is a stupendous monument to his peculiar genius, his audacity in conception, and his persistence in execution. The University symbolizes Malviyaji's respect for the past, confidence in the present, and hope for the future generation of India.

It is a matter of privilege and joy to express my feelings of gratitude towards my venerated **Guruji Prof. Sushant Kumar Shrivastava**. It has been an honor to be under his guidance as a Ph.D. student. I am thankful for his continuous support throughout my research for his patience, motivation, and immense knowledge. I am indebted to him for his appreciation for success and backing and support in failures, which ultimately made me keen to tackle any obstructions occurring during the research work. Without his supervision and constant help, this dissertation would not have been possible. A special thanks to my family. Words cannot express how grateful I am to all my **family members** for all of the sacrifices that they made on my behalf and continuous support they provided to me. Most importantly, none of this would have been possible without the love and patience of my **parents, & Husband (Mr. Manoj K. Gautam)**. They have been a constant source of love, moral support, and strength all these years. I owe this achievement to them.

Last but not least, I pray omnipresent **God** for the **animals** who were mortified for the cause of research and advancement of knowledge. May their souls rest in peace.
