

Acknowledgements

First of all, salutation to Lord Shiva, the reigning deity of holy city Kashi for making my sojourn fruitful. I bow at the lotus feet of **Bharat Ratna Pandit Madan Mohan Malaviyaji**, founder of the Banaras Hindu University. Living in his abode, I always felt a sense of holiness. The Banaras Hindu University is Pandit Malviyaji's crowning achievement. It is a stupendous monument to his peculiar genius, his audacity in conception, and his persistence in execution. The University symbolizes Malviyaji's respect for the past, confidence in the present, and hope for the future generation of India.

It is a matter of privilege and joy to express my feelings of gratitude towards my revered **Guruji Prof. Sushant Kumar Shrivastava**. It has been an honor to be under his tutelage as a Ph.D. student. I am thankful for his continuous support throughout my research for his patience, motivation, and immense knowledge. I am indebted to him for his appreciation for success and backing and support in failures, which ultimately made me keen to tackle any obstructions occurring during the research work. Without his supervision and constant help, this dissertation would not have been possible. He also helped me a lot as Head, Department of Pharmaceutical Engineering & Technology, Indian Institute of Technology (Banaras Hindu University), Varanasi to use the department facilities to carry out my research work.

I am also grateful to, **Prof. B. Mishra, Prof. S.K. Singh & Prof. Sanjay Singh**, Former Heads, for their constant inspiration, valuable suggestions and help which have led to the successful completion of this work.

I owe my gratitude to all my respected Research Progress and Evaluation Committee (RPEC) members for their encouragement and insightful comments leading me to the completion of the research work. I would like to thank **Prof. S. Krishnamurthy** and his **lab members** for support in performing *in-vitro* experiments. I would also like to thank **Prof. S. K. Srivastava** (School of Biochem. Engg., IIT(BHU), Varanasi), **Prof. (Mrs.) S. Hemalatha, Dr. Senthil Raja A., Dr. G. P. Modi, Dr. P. K. Nayak, Dr. Ashish Agrawal, Dr. S. K. Jain, Dr. V. Tiwari** and all other faculty members of the Department for their support and encouragement.

I pay my sincere thanks to *all the non-teaching staff* of the Department for their timely assistance and co-operation during my Ph.D. tenure.

I am indeed thankful to have the company of my lab mates, seniors and juniors *Mr. Piyoosh Sharma, Dr. Devendra Kumar, Dr. Ankit Seth, Dr. Prabhash Nath Tripathi, Dr. Manish Kumar Tripathi, Dr. Anupam Banerjee, Ms Poorvi saraf, Mr. Akash Verma, Ms. Bhagawati, Mr. Ashok Avhad, Mr. Prashant Salunke, Mr. Gunjan Basant Bonde Dr. Chhanda Charan Danta, Mr. Santosh Kumar Prajapati, Mr. Digambar Kumar Waiker, Mr. Ramakrishna Kakarla, Mr. Gopichand Gutti, Mr. Uddipak Rai, Mr. Kaushik Neogi, Dr. Naveen Shivavedi, Mr. Charan Tej, Mr. Yashpal Singh, Ms. Puja Mishra, Mr. Sombir, Ms. Nishi Jain, and Ms. Nidhi Goswami*, who were ever ready to provide me with all the possible help.

A special thanks to my family. Words cannot express how grateful I am to all my *family members* for all of the sacrifices that they made on my behalf and the continuous support they provided to me. Most importantly, none of this would have been possible without the love and patience of my *grandmother, parents, wife & my daughter Swadha Tripathi*. They have been a constant source of love, moral support, and strength all these years. I owe this achievement to them.

Last but not least, I pray for the *animals* who were mortified for the cause of my research work.
