List of Figures

Figure 1.1: In 1987, LOT Polish Airlines Flight 5055 Il-62M crashed because of failed bearings in one engine, killing all 183 people on the plane **2**

Figure 1.2: Offshore wind turbines **2**

Figure 1.3: A rotary machine monitored using vibration signals analysis **8**

Figure 1.4: Neural network model **13**

Figure 1.5: Fault diagnosis techniques **20**

Figure 2.1: Classification of data acquired for RUL prediction **40**

Figure 3.1: Flow chart of Proposed Method **49**

Figure 3.2: 2D CNN configuration **50**

Figure 3.3: The convolution layers of the 1D CNN configuration **50**

Figure 3.4: The experiment set-up **53**

Figure 3.5: The impeller and bearing of centrifugal pump **58**

Figure 3.6: The Epochs vs. Training accuracy of CNN **59**

Figure 3.7: The Epochs vs. Training accuracy of ANN **59**

Figure 3.8: CNN-2D performance after different amount of data enhancements. **60**

Figure 3.9: ANN performance after different amount of data enhancements. **60**

Figure 3.10: Precision-Recall curves for SVC and MLR for centrifugal pump **61**

Figure 3.11: Precision-Recall curves for ANN and CNN-1D for centrifugal pump **62**

Figure 3.12: Precision-Recall curves for CNN-2D for centrifugal pump **63**

Figure 4.1: Flow chart of EMD **69**

Figure 4.2: Flow chart of CMF **71**

Figure 4.3: First layer of a convolutional neural network with pooling 72

Figure 4.4: The experiment set-up 76

Figure 4.5: The compound fault signal 76

Figure 4.6: The two CMFs after merging IMFs 77

Figure 4.7: The IMFs obtained by decomposition of signal 78

Figure 4.8: The faults observed at roller (1.0) and outer race (3.0) by the proposed method 80

Figure 4.9: The faults observed at roller (1.0) and outer race (3.0) by the proposed method 81

Figure 5.1; Supervised learning model 91

Figure 5.2: Boxplot of RULs for test dataset 4 93

Figure 5.3: Histogram of RULs for test dataset 4 94

Figure 5.4: True RUL vs. median RUL vs. linear model prediction of dataset-1 94

Figure 5.5: True RUL vs. median RUL vs. linear model prediction for dataset- 4 95

Figure 5.6: Dataset-1 Plot of operating setting values 96

Figure 5.7: Dataset- 4 Plot of operating setting values 97

Figure 5.8: Plot of features for Dataset-1 97

Figure 5.9: MLP neural network output versus linear target output 98

Figure 5.10: MLP neural network output versus piece-wise linear target output 99

Figure 5.11: Piece-wise linear RUL target function 99

Figure 5.12: Feature importance with colsample=0.25 110

Figure 5.13: Feature importance with colsample=1 110

Figure 5.14: The Gradient Boosted Trees Prediction on training system for largest unit. 111

Figure 5.15: The Gradient Boosted Trees Prediction on training system for meant unit. 112

Figure 5.16: Gradient Boosted Trees predictions on test systems 112

Figure 5.17: Stacking model diagram 116
