
List of Tables

Table 3.1: Description of the centrifugal pump data set	51
Table 3.2: Data-set size for different fault classes.....	52
Table 3.3: Description of Fault levels used for centrifugal pump data-set.....	52
Table 3.5: Performance of ANN with different levels of data enhancement	54
Table 3.6: Performance of Logistic Regression with different levels of data enhancement.....	55
Table 3.7: Performance of 1-D CNN with different levels of data enhancement	56
Table 3.8: Performance of 2-D CNN with different levels of data enhancement	57
Table 4.1: Data description.....	75
Table 4.2: Different fault classes	75
Table 4.3: The results of tests 1-6 for CNN-CMF-EEMD model	82
Table 4.4: The results of tests 7-12 for CNN-CMF-EEMD model	83
Table 5.1: Description of C-MAPSS datasets.....	92
Table 5.2: Distribution of run lengths in training datasets.....	93
Table 5.3: Linear regression is no better than guessing.....	95
Table 5.4: RMSE from gradient boosted trees model	112
Table 5.5: RMSE vs. size of single hidden layer	114
Table 5.6: RMSE for stacking method	116
Table 5.7: RMSE values for various methods on C-MAPSS datasets	117
