

LIST OF TABLES

Table No.	Description	Page No.
Table 1.1	Ply configuration of skin	2
Table 2.1	Literature Review and Research Gap	25
Table 3.1	Validation of FE model	40
Table 3.2	Material properties of CFC used in the analysis (Sudhirsastri et al. [47]).	40
Table 3.3	Ply configuration of elements of the panel	41
Table 3.4	Cross-section of the 60 ⁰ -hat-stiffened panel in transverse direction of stiffener for different pitch length	46
Table 3.5	Depth of stiffener based on smeared stiffness approach for FE modeling of the 60 ⁰ -hat-stiffened panel with fixed D ₁ /D ₂ .	47
Table 3.6	Cross-section of 75 ⁰ -hat-stiffened panel in transverse direction of stiffener for different pitch length	48
Table 3.7	Depth of stiffener based on smeared stiffness approach for FE modeling of the 75 ⁰ -hat-stiffened panel with fixed D ₁ /D ₂ .	49
Table 4.1	Comparative study of R-square for different number of hidden nodes and hidden layers	70
Table 4.2	Comparison of FEA results with ANN predicted results of 60 ⁰ hat-stiffened panel	79
Table 4.3	Comparison of FEA results with ANN predicted results of 75 ⁰ hat-stiffened panel	79
