

List of Tables

Table Number	Title	Page Number
1.1	Pressure Ratio for Fans & Blowers	2
2.1	Trouble Shooting for Motor Vibration	9
2.2	Trouble Shooting for Mechanical Looseness	
4.1	Specifications for the Experimental Motor Mounted Blower	46
4.2	Specifications of the 15kW Electrical Drive that was used	48
4.3	Coefficient of the Variable X_1 & X_2 of Y_1 (Point1)	61
4.4	Coefficient of the Variable X_1 & X_2 of Y_2 (Point 2)	62
4.5	Regression Output Analysis	62
5.3	Vibration Measurement at MDE & MNDE bearing on I Beam Base	70
5.4	Vibration Measurement at MDE & MNDE after Change over to Channel Base	74
5.5	Comparison of the Vibration Readings after Changing from I beam Structure to Channel Structure	75
5.6	Final Vibration Readings of the Motor Mounted Centrifugal Blower after Balancing	81
