

ACKNOWLEDGEMENT

This thesis is the outcome of several years of long dissertation work whereby I have been accompanied and supported by many people. It is a pleasant aspect that I have now the opportunity to express my sincere gratitude to all of them.

First and foremost, I would like to thank my supervisor, Prof. M.K. Mondal, Department of Chemical Engineering and Technology, IIT (BHU) for his unparalleled guidance, expertise, encouragement and wisdom to improve my research, academic writing and presentation skills throughout the whole long dissertation work. He has given me the freedom to execute the set of experiments the way I want. Also, he has always supported and strengthened me in many direct and indirect ways. His thoughtful and valuable reviews, constructive criticism and tireless review of all the manuscripts have immensely helped me to improve the work. I gratify him a lot of gratitude for showing confidence in my work.

I would also like to thank Prof. S.K. Srivastva, School of Biochemical Engineering, IIT (BHU) and Dr. H.L. Pramanik, Associate Professor, Department of Chemical Engineering for the enthusiastic forward-thinking and giving valuable suggestions during my research progress evaluation committee meetings. They also taught me about the ups and downs of reviewers, which I'll never forget.

I am highly grateful to Prof. P. K. Mishra, Head, Department of Chemical Engineering and Technology, Indian Institute of Technology (Banaras Hindu University), for providing necessary facilities and encouragement during the research work.

I express my sincere thanks to all DPGC and RPEC members for their direct or indirect motivation and assistance from different corners during my research work at institute.

I also like to take this opportunity to express my heartfelt gratitude and regards to Dr. Pradeep Kumar, Prof. B. N. Rai, Prof. R. S. Singh, Prof. A. K. Verma, Prof. A. S. K. Sinha, Dr. V. L. Yadav, Dr. Bhawna Verma, Dr. S. V. Singh and Dr. Ankur Verma, Dr. Manoj Kumar and Dr. J.P. Chakraborty for their co-operations. Also, I express my sincere thanks to all faculty members of the Department of Chemical Engineering and Technology, Indian Institute of Technology (Banaras Hindu University) for their continued help and co-operation for completion of this dissertation work.

I like to extend my sincere thanks to Dr. D. K. Singh, Director, BIT Sindri, Dhanbad, and Dr. S. P. Singh, Professor and Head, Department of Chemical Engineering, BIT Sindri, Dhanbad, for providing leave leave to carry out the Ph.D. related work as and when required.

Further, I would appreciate Mr. Dayaram Singh Yadav, Senior Technician, Chemical and Instrumental analysis Laboratory, Mr. Shailendra Kumar Upadhyay, Mr. Arjun Prasad, Mr. Umesh, technical staffs, Sophisticated Instrumentation Laboratory, Mr. Vinay Kumar, Technician, Energy resources laboratory, for their assistance on the experimental issues with their expertise in characterization. I also thank Mr. Ankit Kumar, Mr. Arvind Kumar, Mr. Varun from Computer Lab for providing me valuable help and support during the course of work. Mr. Ramadhar Singh, Department of Chemical Engineering provides me valuable support and encouragement during the research work. I am very thankful to all technical and office staff of Department of Chemical Engineering and Technology, Indian Institute of Technology (Banaras Hindu University).

Sometimes it's really beneficial to have somebody who can give you a quick answer, rather than search it for hours. And for this I feel lacunae of words to express my most

heartfelt and cordial thanks to my friends, colleagues and seniors Mr. Alok Ranjan (JE, Gov. of Jharhand), Mr. Goutam Kishore Gupta, Ms. Renu Bala, Mr. Munna Kumar, Mr. Tarun Dixit, Dr. Devendra Kumar Singh, Mr. Mithilesh Rai, Mr. Shailesh Kumar, Mr. Anuj Kumar Prajapati, Mr. Sudhakar Saroj, Dr. Arvind Singh, Dr. CV Raghunath, and who also have always helped me in all condition and stood by my side at the toughest time.

The whole credit of my achievements goes to my father Mr. Kailash Ram, mother Mrs. Sharda Devi, brothers Mr. Dharmendra Kumar and his better half Mrs. Rita Devi, Mr. Ravindra Kumar and his better half Mrs. Pooja Devi, sisters Mrs. Babita Devi, Mrs. Kavita Devi, Mrs. Sabita Devi and my best friend Purnima Kumari Kachhap who have always been a source of inspiration for me and they were always there for me in my difficulties. It was their unshakable faith in me that always helped me to proceed further. This thesis could not have been reality without the blessing of my parents and family members.

I am grateful to the Ministry of Human Resource and Development (MHRD), Government of India and Chemical Engineering and Technology, Indian Institute of Technology (Banaras Hindu University) Varanasi for financial and necessary supports to undertake the work.

I wish to extend a warm thank to all those who could not find a separate name but have helped directly and indirectly.

Date:

Varanasi

(Mahendra Ram)
