

LIST OF TABLES

Table 2.1:	Experimental setup specifications.	36
Table 3.1:	Experiment specification.	65
Table 4.1:	Experimental setup details.	78
Table 4.2:	Class belonging of data number.	85
Table 4.3:	Confusion matrix.	93
Table 4.4:	Accuracy comparison.	93
Table 5.1:	Estimation process of desired target response from mixed response of multiple movers present in single channel.	101
Table 5.2:	Used data description.	105
Table 5.3:	Estimated disaggregated signal correlation with original signal before mixing.	114
