

## LIST OF TABLES

---

<b>Table No.</b>	<b>Caption</b>	<b>Page No.</b>
Table 1.1	Chemical reactions relevant in graphite burning.	21
Table 2.1	Properties of alumina	48
Table 2.2	Properties of quartz	49
Table 2.3	Properties of borosilicate	52
Table 2.4	Specifications of the Nanoscan and OPS	57
Table 3.1	Probe diameter range at different flow rates	75
Table 3.2	Experimental conditions for isokinetic and anisokinetic sampling	77
Table 3.3	Reynolds number at different flow rates	79
Table 4.1	Properties of graphite sample	88
Table 5.1	Percent loss in the weight of graphite samples	107
Table 5.2	Weight balance of combustion products	108
