

## ACKNOWLEDGEMENTS

First and foremost, I would like to express my immense gratitude to my supervisor Prof. Pradip Kumar Jain for his excellent guidance and motivation. The completion of this research work is truly an outcome of his determined support, valuable ideas and suggestions during my research work. The insightful discussions with him always provided me great enthusiasm. His constant guidance, cooperation, motivation and support have always kept me going ahead.

My special words of thanks also go to my research co-supervisor Dr. Smrity Dwivedi for her continuous support, guidance, cooperation, encouragement and for facilitating all the requirements, going out of her way. She has taught me another aspect of life, that, “goodness can never be defied and good human beings can never be denied”. I owe a lot of gratitude to her for always being there for me.

The work presented in this thesis would not have been possible without my close association with many people. I take this opportunity to extend my sincere gratitude and appreciation to all those who made this Ph.D thesis possible.

I wish to extend my sincere gratitude towards my research performance evaluation committee (RPEC) members, Dr. M. Thottappan and Prof. R. Mahanty for their encouragement and insightful comments. I am grateful to Dr. David V. Giri from Pro-Tech, CA, USA for his very informative discussion during his visit in our institute. I also thankful to Dr. Nallasamy Veeranan from MTRDC, Bengaluru for very informative discussion and encouragement during his educational journey in our institute.

My special thanks to Mr. Sunil Vishwakarma, Mr. Arvind Asthana, Mr. Anil Kumar, Mr. Arjun Kumar, Mr. Prabhakar Tripathi, Mr. Vineet Singh and Mr. Soumjit during my fabrication and experiment.

My heartfelt thanks to my seniors Dr. Madan Singh. Chauhan, Dr. Gargi Dwivedi, Dr. Amit Arora, Dr. M. V. Swati, and Dr. Manpuran Mahto for their valuable assistance from personal to the technical level.
