

ACKNOWLEDGEMENTS

I would like to deep express my immense gratitude to my supervisor Prof P. K. Jain, who has not only given me a platform to work on my favorite research topic but also through his sheer dedication, patience, stimulating suggestions and serene discussions, motivated me to improve my work and come up with different ideas. The completion of this thesis would not be possible without his guidance and persistent help during my research work. His fatherly nature is the source of my inspiration and was the driving force which keeps me always on right track to achieve my goal. I will be highly obliged for making of my life meaningful on his supervision and intend to work with his prestigious team and planets, which will give me an in-depth experience, and will also offer me an opportunity of shaping the new talents with technical now-how as hard work, diligence and ability to meet deadlines, teamwork and leadership skills. Charan-sparsh and thank you very much for yours kindness sir.

In my endeavour, I was fortunate to have an inspirational and highly knowledgeable advisor, Prof. V. K. Tripathi, Indian Institute of Technology (IIT), New Delhi, India. He was an expertise in the field of the nonlinear interaction of electromagnetic waves with plasmas, the radio frequency heating of plasmas, parametric instabilities in magnetized plasmas, self-focussing/ defocusing of laser beams in plasmas, theory of RF heating of the ionosphere, gyrotrons and free electron lasers as high energy laser physics as well as his ability to effectively teach the principles of such things to made the process of thesis writing a great learning experience for me. Additionally, I was fortunate to be part of the Free Electron Laser research groups at IIT, New Delhi, India and the other professors in the group were also great sources of help and knowledge for me also. I would like express my special thanks to Prof. C. S. Liu, Department of Physics and Astronomy, University of Maryland, College Park, MD. I wish to extend my acknowledgement and deep express to my teachers Prof. R. Mahanty, Dr. M. Thottappan, Prof. Anil Kumar Agarwal, Prof. S. K. Sharma, Prof. R. K. Srivastava, Prof. D. N. Vishwakarma, Prof. Prabhat Kumar Singh Dixit, Dr. R. K. Saket, Dr. Anil Kumar, Dr. Manish Kumar, Prof. S. K. Shukla, Prof. Sanjay Balani (Ex. Director, KIT, Varanasi, UP), Prof. B. B. Tiwari (Head, Department of Electronics & Communication Engineering, UNSIET, VBSPU, Jaunpur, UP) and Dr. R. C. S. Chauhan (Associate Professor, Department of Electronics Engineering, IET, Lucknow, UP), Mr. Ajay Kumar Maurya (Assistant Professor, UNSIET, VBSPU, Jaunpur, UP) for their valuable assistance.

I would like to deep express my special thanks to Dr. M. V. Swati, Dr. Manpuran Mahto, Dr. Vikram Kumar and Mr. Anshu Sharan Singh, for his valuable technical assistance and all my dear colleagues Dr. Rajan Agrahari, Mr. Shiva, Dr. Akhilendra, Mr. Rajnish, Mr. Arjun, Mr. Prabhakar, Mr. Vineet, Mr. Akash and Mr. Mumtaz for creating a friendly and happy environment needed for completing my work. My thanks and deep appreciations also go to all staff members of CRMT (Centre of Research in Microwave Tubes), for their excellent coordination in providing technical and logistic support. My special thanks to Mr. Rajesh Kumar Rai and Mr. Achal Kumar Srivastava for their kind co-operation and encouragement during my Ph.D. work.

I would like to my deep appreciation to my friends Dr. Rajesh Singh, Assistant Professor, MMTU, Gorakhpur, Mr. Shailendra Kumar Sonkar, Department of Computer Engineering and Science, AVBIET, Ranchi, Jharkhand, Dr. Lokesh Singh Umrao, Dr. Santosh Tulsii, Dr. Sanjay Kumar, Dr. Deepak Kumar, Dr. Amit Kumar Chaudhary, Dr. Raja Ram Kumar, Arpita Roy, Tarun Maini, Brij Bansh Nath Anchal, Jitendra Kumar Singh, Anand Gandhi Patel, Balendra Kumar Singh and Pooja Sonker who has been a source of strength and helped me in every phase of my life during my Ph.D. duration. My deepest appreciation towards my hearty mother Smt. Meera Devi, loving spouse Miss. Beena Devi, younger brother Dr. Madan Sonkar with his wife Miss. Pooja Devi, My daughters Avesta Kaveri, Kumud Anshvaani, Aanvi, Gungun and my sons Bhawani Prasad Singh Sonker and Rudra Pratap Singh Sonker for their continuous support and encouragement. They always being a source of strength for me and still remain an invaluable asset to me. I have a deep appreciation for my sister Miss. Munni Devi and brother-in-law Mr. Rajendar Sonkar, Mr. Shiv Kumar Sonkar (Mamaji), Miss. Vandana Devi (Mamiji) and my bhanja Mr. Vishal Sonker (Bhim) for providing enormous moral support to me. Finally, I wish to thank my grandparents, father-in-law and mother-in-law. I wish to express indebtedness to them, for their unconditional love, extreme patience and constant supports over the years. From the core of my heart, I hearty dedicate this thesis to my father's Late Nanhak urf Lalla Ram Sonker "Nanhak Mistri".

Last but not the least; I thank almighty God Bhagwan Bhole Nathji and Bhagwan Ganeshji for providing me strength and courage in completing the work.

Date: 24 December, 2018

(Ram Gopal)
