The work presented in this thesis would not have been possible without my close association with my supervisor who were always there when I needed them the most. I take this opportunity to acknowledge them and extend my sincere gratitude for helping me make this thesis a possibility. At this moment of accomplishment, first of all I would like to pay the homage to the founder of Banaras Hindu University, “**Pandit Madan Mohan Malviya Ji**” who made this glorious temple to realize spiritual, technical and scientific knowledge about this vast existing universe.

I embrace the opportunity to express my deep sense of gratitude to my supervisor **Dr. Akhilesh Kumar Singh**, Associate Professor & Coordinator, School of Materials Science & Technology, IIT(BHU), Varanasi for his constant guidance, valuable suggestions and kind encouragement during my association with his research group. His encouragement, constant support, intellectual stimulation, perceptive guidance, immensely valuable ideas, and suggestions from the initial to the final level enabled me to develop an understanding of the subject.
