

ACKNOWLEDGEMENTS

The work presented in this thesis would not have been possible without my close association with many peoples who were always there when I needed them the most. I take this opportunity to acknowledge them and extend my sincere gratitude for helping me make this thesis a possibility. At this moment of accomplishment, first of all I would like to pay the homage to the founder of Banaras Hindu University, **Pandit Madan Mohan Malvia ji**, who made this glorious temple to realize spiritual, technical and scientific knowledge about this vast existing universe.

I embrace the opportunity to express my deep sense of gratitude to my supervisor **Dr. Rajiv Prakash**, Professor, School of Materials Science & Technology (SMST), IIT (B.H.U.), Varanasi for his constant guidance, valuable suggestions and kind encouragement during my association with his research group. His encouragement, constant support, intellectual stimulation, perceptive guidance, immensely valuable ideas, and suggestions from the initial to the final level enabled me to develop an understanding of the subject. His scholarly suggestions, prudent admonitions, immense interest, constant help and affectionate behavior have been a source of inspiration for me. His suggestions will remain with me as an inexhaustible source of scientific learning throughout my life.

I would like to express my sincere and whole hearted gratitude to **Prof. D. Pandey** (Institute Professor), **Prof. P. Maiti**, **Dr. C. Rath**, **Dr. C. Upadhyay**, **Dr. B. N. Pal**, **Dr. A. K. Mishra**, **Dr. Sanjay Singh**, and **Dr. S. K Mishra** SMST, IIT-BHU, Varanasi, for discussion during seminars and valuable suggestions given by them. I am especially thankful to **Dr. A.K. Singh**, Coordinator, SMST, IIT-BHU, Varanasi for valuable suggestions during my research work. I am much grateful to **Dr. Ashish Kumar Singh**, **Dr. Jitendra Kumar**, **Dr. Shri Ram Singh**, visiting faculties, SMST, IIT-BHU, Varanasi for their time to time help and support. obtained without a close collaboration with few laboratories. I am thankful to **Prof. Ranjan Singh** and his student **Dr. Ranjana Singh** (Department of Physics, Institute of Science, BHU) for providing facilities like PL, Raman, and important discussion/suggestions during my research work.

I am thankful to the unknown reviewers who have rejected my papers several times in some of the international conferences and journals. The comments that they provided helped to polish our articles in better shape. But the bigger and nobler cause of thanking them is that the rejections have equipped me with high level of patience and helped me a lot to exercise/implement my spiritual thoughts in practice.

My acknowledgement will never be complete without the special mention of my lab seniors who have taught me the lab culture and have lived by example to make me understand the hard facts of life. I would like to acknowledge **Dr. Arun K. Singh, Dr. Akhilesh K. Singh, Dr. Swati Mohan, Dr. Bhawna Gupta, Dr. Monika Srivastava, Dr. Leela Joshi, Dr. Rajiv K. Pandey, Dr. Uday P. Azad, Dr. Shashi Tiwari, Dr. Gopal Ji, Dr. Sandeep Gupta, Dr. Madhu Tiwari, Dr. Kashish, and Dr. Preeti Tiwari** SMST, IIT-BHU, Varanasi for their encouragement and valuable suggestions during my research period.
