

## **ACKNOWLEDGMENTS**

It's my great pleasure in acknowledging the support, help, encouragement and guidance that I have received from several people during the completion of this thesis. At this moment of accomplishment, first of all, I would like to pay the homage to the founder of Banaras Hindu University (BHU), Mahamana Pandit Madan Mohan Malviya Ji, who has made this glorious learning temple to realize the spiritual, scientific and technical knowledge to the existing universe. I would like to express my gratitude to my supervisor Prof. Rajiv Prakash, School of Materials Science and Technology (SMST), IIT-BHU for providing lots of support, patience and guidance throughout the completion of my doctoral degree. His encouragement, constant support, perceptive guidance and valuable ideas from the initial to the final level enabled me to develop an understanding of the subject. His scholarly suggestions, affectionate behavior, prudent admonition and simplicity have been a source of inspiration for my life and that will remain with me throughout life.

I would like to express my sincere thanks to faculty members of SMST Prof. D. Panday, Prof. P. Maiti, Dr. A.K. Singh, Dr. C. Upadhyay, Dr. C. Rath, Dr. B. N. Pal, Dr. A.K. Mishra, Dr. S.K. Mishra and Dr. S. Singh (School of Materials Science and Technology, IIT-BHU) and Prof B.R. Rastogi (Dept. of Chemistry IIT-BHU) for discussion during course work and seminars. I would also like to convey my thanks to my RPEC members Dr. A.K. Singh and Prof. V. Srivastava (Department of Chemistry IIT-BHU, Varanasi) for their valuable guidance, discussion and suggestions time to time during seminars. I am thankful to Prof. S. R. Singh and Prof. J. Kumar (Visiting Faculty of SMST), Dr. P. Dubey (Asst. Prof. at the University of

Allahabad) for their scientific suggestions. I would like to acknowledge Central Instruments facility, IIT-BHU) for providing characterization facilities. I also gratefully acknowledge the UGC-Delhi for supporting me financial assistance to pursue my research work peacefully.

My acknowledgment will never be complete without the special mention of my lab seniors who have taught me the lab culture and have lived by example to make me understand the hard facts of life. I would like to acknowledge Dr. Sandeep Gupta, Dr. Kashish Gupta, Dr. Preeti Tiwari, Dr. Richa Mishra, Dr. Manish K. Singh, Dr. Uday P. Azad, Dr. Gopal Ji, Dr. Madhu Tiwari, Dr. Neeraj Giri, Dr. N.R. Nirala for all their valuable suggestions and supports during the initial days of my Ph.D. My special thanks to Dr. Ashish Kumar, Central Instrument Facility, IIT-BHU for his valuable suggestions and unconditional support during my Ph.D. life. I also thank to Dr. Monika Srivastav, SMST, IIT-BHU for offering her various types of homemade delicious food while working in the lab.

I am thankful to my lab fellow and juniors of my lab specially Vinita, Vineet Mall, Ravi Prakash Ojha, Nikhil verma, Aniruddha Jaiswal, Priya Singh, Shweta Pal, Subhajit Jana, Saurabh Kumar, Shipra Gupta, Radhe, Nupuur, Rajpal and Radha Rajpoot for their helping behavior and enjoying company. My heartfelt thanks to my close friends and fellow mates Nandlal Rajak, Nitesh and Sunil for always being there and bearing with me the good and bad time during my wonderful days of Ph.D. I thank to my friends Santosh, Akhil and Rahul Chaurasiya from the University of Allahabad.

It's my fortune to gratefully acknowledge the support of some special individuals. Words will fail short to express my appreciation to Dinesh Kumar Verma, Dr. Uday Singh Patel and Dr. Sushmita for their support, suggestions and constant motivation during my Ph.D.

I would also like to thank my parents and all my family members for their love and support have provided much-needed encouragement throughout this process. Last but not least, I would like to thank almighty God who supports me always since my past life of duration of my whole study.

Chandra Jeet Verma
