
LIST OF TABLES

Table 2.1 Tertiary amine-based solvent for CO ₂ capture	14
Table 2.2 DEEA solvent for CO ₂ capture	18
Table 2.3 DEEA-based amine blend solvent for CO ₂ capture	22
Table 4.1 Experimental data on the solubility of CO ₂ in aqueous DEEA + AEEA blend	62
Table 4.2 Comparison of CO ₂ solubility data in various aqueous mixtures of amines with respect to DEEA+AEEA blend	71
Table 5.1 Experimental CO ₂ solubility in aqueous binary mixture of DEEA and HMDA at different operating conditions	84
Table 5.2 Comparison of the solubility of CO ₂ in various aqueous mixtures of amines with respect to DEEA+HMDA blend	92
Table 5.3 Co-efficient of developed modeling equation for CO ₂ solubility in DEEA+HMDA blend	95
Table 6.1 Specification of chemicals used in the work	106
Table 6.2 Comparison of CO ₂ solubility in different DEEA based aqueous amine blends with respect to DEEA+EDA blend	115
Table 6.3 Co-efficient of developed modelling equation for CO ₂ solubility in DEEA+EDA blend	118
Table 6.4 Experimental CO ₂ solubility (α_{exp}) and calculated CO ₂ solubility (α_{cal}) in various compositions of DEEA+EDA, absolute relative deviation (ARD) in % and average absolute deviation (ARD) in % at different operating conditions of temperature (K) and CO ₂ partial pressure (kPa)	119
Table A.1 Physico-chemical properties of amines	147
Table A.2 Estimated data of absorption heat of CO ₂ in DEEA+AEEA solution at various loading	148
