

Acknowledgements

First of all, I would like to acknowledge God, who gave me the opportunity and courage to accomplish the research work presented in this thesis. Secondly, I acknowledge the Head of department of electrical engineering, IIT BHU, for accepting me as a research scholar to work under prominent professors of the academic world. I acknowledge the guidance and motivation given by my guide Prof. R. K. Srivastava, without which this thesis would not even be started. Further, I would like to acknowledge the support of Dr. S. K. Singh, Dr. R. K. Saket, Dr. Kalpana Chaudhary, and other respected faculties of the department.

I would like to acknowledge the knowledge share, and intriguing discussions held with my fellow researchers Mr. Abhishek Kumar, Mr. Praveen Kumar, Mr. Avneet Kumar, Mr. Lovesh Benedict Xaxa, Mr. Shailendra Singh, Mr. Moti ul-Reza, Mr. Abhinandan and other friends whose name I have not mentioned here but who were always courteous to my queries and lenient towards my behavior.

This acknowledgment would be incomplete without the mention of the support staff of Rampur Hall and the workmanship of technicians in the workshop, such as Shri Ramji Vishwakarma, Shri Vipin, and Shri Lalan from fitting workshop, Shri Sunil and Shri Bacchai from machine workshop and Shri Balbeer.

Supports of my father Mr. Paras Nath Gupta, mother Mrs. Prem Sheela Gupta, brother Mr. Shivendra Kumar Gupta, her wife Mrs. Diksha Gupta, and Ms. Raushini were notable for giving me peace of mind to do my research work.

Love and care from my in-laws deserve mention in this acknowledgment as it was always a motivation to keep focused on my work.

Lastly, I would like to acknowledge my dear wife, Mrs. Ritika Gupta, for understanding and supporting me throughout my research work.
