

LIST OF TABLES

| | |
|---|-----|
| Table 3.1. Measurement and Result of 40 % Porous MgO firing temp 1100 °C | 28 |
| Table 3.2 Measurement and Result of 30% Porous MgO firing temp 1100 °C | 28 |
| Table 3.3 Measurement and Result of 40 % Porous MgO firing temp 1200 °C | 29 |
| Table 3.4 Measurement and Result of 30% Porous MgO firing temp 1200 °C | 29 |
| Table 3.5 Measurement and Result of 40 % Porous MgO firing temp 1300 °C | 30 |
| Table 3.6 Measurement and Result of 30 % Porous MgO firing temp 1300 °C | 30 |
| Table 3.7. Measurement and Result of 40 % Porous MgO firing temp 1100 °C at SP 2h | 31 |
| Table 3.8 Measurement and Result of 30% Porous MgO firing temp 1100 °C at SP 2h | 31 |
| Table 3.9 Measurement and Result of 40 % Porous MgO firing temp 1200 °C at soaking period 2 hour. | 32 |
| Table 3.10 Measurement and Result of 30% Porous MgO firing temp 1200 °C at Soaking period 2 hour | 32 |
| Table 3.11 Measurement and Result of 40 % Porous MgO firing temp 1300 °C soaking period 2 hour | 33 |
| Table 3.12 Measurement and Result of 30 % Porous MgO firing temp 1300 °C soaking period 2 hour | 33 |
| Table 4.1 Measurement and Result of spongy spinel firing temp 1300 °C soaking period 1 h with different mole concentration | 42 |
| Table 4.2 Measurement and Result of spongy spinel firing temp 1400 °C soaking period 1hour. | 46 |
| Table 4.3 Measurement and Result of spongy spinel firing temp 1400 °C SP 2h | 47 |
| Table 4.4 Measurement and Result of spongy spinel firing temp 1300 °C soaking period 2 h | 48 |
| Table 5.1 Measurement of Relaxation process in different solution treatment with 0.1M NaCl | 76 |
| Table 5.2 Measurement of Relaxation process in different solution treatment with 0.2 M NaCl | 77 |
| Table 5.3 Failure Mode effect analysis template-Minimize Error 6 mol% Solution | 82 |
| Table 5.4 Failure Mode effect analysis template-Minimize Error for 8 mol% Solution | 83 |
| Table 5.5 Failure Mode effect analysis template-Minimize Error for 10 mol% Solution | 84 |
| Table 9.2.1 Corrosion for different bath | 120 |
