

LIST OF TABLES

Table No.	Description	Page No.
3.1	IUPAC names, structures and abbreviations of synthesized additives	48
3.2	Wear-rate for PO in the presence and absence of additive for 60 min test duration at 392 N applied load	57
4.1	Loss of frictional power measured of different additives at an optimised concentration of 0.2 % (w/v) in PO	80
5.1	Wear-rate for PO in the presence and absence of additive for 60 min test duration at 392 N applied load	99
6.1	Loss of frictional power measured of different additives at an optimized concentration of 0.5 % (w/v) in PEG.	122
