

LIST OF FIGURES

Fig. No.	Figure Caption	Page No.
2.1	Generation and Utilisation of flyash from 1996-97 to 2017-18 (CEA)	16
2.2:	Disposal of Flyash slurry through pipe line from TTPS into residual quarry of Balanda OCM, MCL	16
2.3	Flyash mound formed in the used quarry of Balanda, OCM after disposal of ash slurry from TTPS	16
3.1	Location map of study area Singrauli, M.P	27
3.2	Mine blocks of Singrauli coalfield	27
3.3	Flow diagram of method and methodology	28
3.4	Drainage pattern in the various mines of Singrauli	28
3.5	Sampling collection of different mines of NCL	31
3.6	Water bodies and sampling sites in various mines of Singrauli Coalfield	34
3.7	Preparation of samples for different laboratory experiment and analysis	38
3.8	Preparation of samples for different laboratory experiment and analysis	38
3.9	Flyash and overburden sample for analysis of elemental and minerals by SEM, XRD and XRF	38
3.10	XRD instrument using for sample analysis	40
3.11	Analysis of trace metals in water quality by ICP-ES instrument	48
3.12	Water sample analysis by Multi parameter	51
4.1	XRD analysis of various type of overburden NCL mines	62
4.2	XRD analysis of flyash different type of Thermal Power Plants Singrauli Coalfield	63
4.3	Cumulative XRF analysis of overburden, flyash, and overburden + 30% flyash	66
4.4	SEM image (2 μ m) of flyash of Anpara TPP	68
4.5	SEM image (2 μ m) of flyash of Shaktinagar TPP	68
4.6	SEM image (2 μ m) of flyash of Shaktinagar TPP	69
4.7	SEM image (2 μ m) of flyash of Renusagar TPP	69
4.8	SEM image (10 μ m) of flyash of Renusager TPP	70
4.9	SEM image (10 μ m) of flyash of Anpara TPP	70
4.10	SEM image (2 μ m) of overburden of Gorbi mine	71
4.11	SEM image (2 μ m) of overburden of Nighai mine	71
4.12	SEM image (2 μ m) of overburden of Gorbi Block 'B'	72
4.13	SEM image (2 μ m) of overburden of Bina mine	72
4.14	SEM image (2 μ m) of overburden of Dudhichua mine	73
4.15	SEM image (2 μ m) of overburden of Khadia	73
4.16	SEM image (20 μ m) of overburden of Amlohri mine	74
4.17	SEM image (20 μ m) of overburden of Jhingurdah mine	74
4.18	SEM image (2 μ m) of overburden + 30% flyash of Vindhyachal TPP	75
4.19	SEM image (2 μ m) of overburden + 30% flyash of Amlohri mine	75
4.20	SEM image (10 μ m) of overburden + 30% flyash of Bina mine	76
4.21	SEM image (20 μ m) of overburden + 30% flyash of Jhingurdah mine	76

4.22	Location map of study area (Northern Coalfield Ltd) Singrauli	86
4.23	Experimental setup for water quality analysis	88
4.24	Box fill with different lithotypes of sandstones	89
4.25	Fill the different type of sandstones in experimental setup	89
4.26	Rain water passing through different litho- types of overburden	90
4.27	Variation of pH of rain water leachate with time	91
4.28	Location of sample collection point in Gorbi abandoned mine, Singrauli coalfield (Image © 2019 CNES/Airbus, Image © 2019 Digital Globe, © 2018 F1:2 Google.)	92
4.29	a) Water body of Gorbi abandoned mine; b) Sample collected from water body of Gorbi abandoned mine	94
4.30	Change in leachate pH of Gorbi mine treated with OB, FA and OB-FA mix with time	97
4.31	Reduction in TDS of Gorbi mine water with OB, FA and OB-FA mix with time	99
4.32	Analysis of leachates	100
4.33	Trilinear piper dig Amlohri of mine water	112
4.34	Trilinear piper dig of Dudhichua mine water	112
4.35	Trilinear piper dig of Bina mine water	113
4.36	Trilinear piper dig of Amlohri ground water	113
4.37	Trilinear piper dig of Dudhichua ground water	114
4.38	Trilinear piper dig of Bina ground water	114
4.39	Contour map for Cadmium concentration in water samples during pre-monsoon season	116
4.40	Contour map for Chromium concentration in water samples during pre-monsoon season	116
4.41	Contour map for Copper concentration in water samples during pre-monsoon season	117
4.42	Contour map for Iron concentration in water samples during pre-monsoon season	117
4.43	Contour map for Manganese concentration in water samples during pre-monsoon season	118
4.44	Contour map for Lead concentration in water samples during pre-monsoon season	118
4.45	Contour map for Cadmium concentration in water samples during post-monsoon season	119
4.46	Contour map for Chloride concentration in water samples during post-monsoon season	119
4.47	Contour map for Chromium concentration in water samples during post-monsoon season	120
4.48	Contour map for Copper concentration in water samples during post-monsoon season	120
4.49	Contour map for Iron concentration in water samples during post-monsoon season	121
4.50	Contour map for Magnesium concentration in water samples during post-monsoon season	121
4.51	Contour map for Manganese concentration in water samples during post-monsoon season	122
4.52	Contour map for Lead concentration in water samples during post-monsoon season	122

4.53	Contour map for pH concentration in water samples during post- monsoon season	123
4.54	Contour map for Sulphate concentration in water samples during post-monsoon season	123
