The endless thanks goes to Lord Almighty for all the blessings that God has showered onto me, which has enabled me to write this last note in my research work. During the period of my throughout learning career, I have been blessed by Almighty with some extraordinary people, from them fantastic lessons I learnt. Words can never be enough in expressing how grateful I am to those incredible people in my life who made this thesis possible. I would like an attempt to thank all of them for making my time excellent during my research in the Institute.

I am deeply indebted to my research supervisor, such a magnetic Professor Rajiv Prakash for trust, support and perseverance. Each meeting with him added invaluable aspects to the implementation and broadened my perspective. He has guided me with his invaluable suggestions, lightened up the way in my darkest times and encouraged me a lot in the research life. From him I have learnt to think critically, to select problems, to solve them and to present their solutions. I would like to thank him for furthering my education in many interesting subjects like energy, water, solar storage and machines learning. He has given me the best exposure of new area of research within the country by sending me to national and international conferences in R & D Institution and university. He was the best choice that, I could have made for thesis advisor. Sometime we are just (or incredibly) lucky!!!

I regard as its great honor to have been part of the Banaras Hindu University and Indian Institute Technology (BHU) Varanasi for my academic and research career. I salute the way of teaching of every Faculty members from Chemistry Department, Banaras Hindu University, from them I could get zillion of wisdom which helped me tremendously in my life.

I consider it's a great privilege to have influenced with some great Professors in my academic career Prof. Ramadhar Singh, Prof. Kaushal K Upadhyay, Prof. S. S. I would like to appreciate all the unknown researchers from whom I inspire with their works for initially understanding in my field of research. I would like to address special thanks to the unknown reviewers of my research publications and thesis, for accepting to read and review article/thesis. I am thankful to the all the non-teaching staffs K. Ram ji, A. Rai ji, A. Sharma ji, S. Dube ji, A. Singh Ji, Tiwari Ji, Patel Ji and Shiv, School of Materials Science and Technology, IIT-BHU for their official cooperation at all levels.

I would express my deep sense of gratitude for the affection and consistent support shown to me by my parents Maya and Ram. I take this opportunity to dedicate this work to my family who have made me what I am. They has supported me in each and every way, believed in me permanently and inspired me in all dimensions of life. I owe everything to them, without their everlasting love, this thesis would never be completed.

I gratefully acknowledge CSIR-UGC New Delhi, IIT BHU Varanasi for providing me financial assistance and travel support during my research. Finally, I once again say Thanks to God who kept me

physically and mentally healthy for the accomplishment of the work. I feel obliged to say thanks to all of them once again. All of you made it possible for me to reach this last stage of my endeavour. Last but certainly not the least, we are deeply indebted to my family, without their support and trust, this thesis is impossible.

Expressing thanks from my bottom of the heart..
