

List of Table

Table Number	Title	Page No.
Table 5.1	Summary of penalty parameters' settings applied to different problems constituted for various types of riprap stones	106
Table 5.2	Summary of the adopted ranges of decision variables	107
Table 5.3	Least cost canal characteristics obtained by application of Particle Swarm Optimization using round riprap stones	108
Table 5.4	Least cost canal characteristics obtained by application Particle Swarm Optimization with subround and subangular stones	109
Table 5.5	Least cost canal characteristics obtained by application of Particle Swarm Optimization with angular riprap stones	110
Table 5.6	Performance comparison of different riprap stones for minimum cost channel under <i>freeboard scenario 4</i>	111
Table 7.1	Summary of the penalty parameter settings applied to fish shoal optimization algorithm.	150
Table 7.2	Range of decision variables adopted for the optimization algorithm.	150
Table 7.3	Least cost canal characteristics obtained by application of FSO with two different sets of parameter settings.	151
