

## LIST OF FIGURES

---

<b>Figure 2.1:</b> Block diagram for video surveillance system .....	13
<b>Figure 2.2:</b> Rotation invariance property of Daubechies complex wavelet transform. . .	18
<b>Figure 3.1:</b> Block Diagram of the Proposed Method.....	53
<b>Figure 3.2:</b> Sub-block Diagram of the proposed approach.....	54
<b>Figure 3.3:</b> Block Diagram of the Background Modeling in LL sub-band .....	58
<b>Figure 3.4:</b> Segmentation results for People video sequence. ....	69
<b>Figure 3.5:</b> Segmentation results for Intelligent Room video sequence. ....	70
<b>Figure 3.6:</b> Segmentation results for One Step video sequence. ....	71
<b>Figure 3.7:</b> Segmentation results for Camera2_070605 video sequence.....	72
<b>Figure 3.8:</b> Segmentation results for highwayI_raw video sequence. ....	73
<b>Figure 3.9:</b> Segmentation results for 4917-5_70 video sequence.....	74
<b>Figure 3.10:</b> (a-f) RFAM variations with respect to frame no.....	84
<b>Figure 3.11:</b> (a-f) MP variations with respect to frame no .....	86
<b>Figure 3.12:</b> (a-f) RPM variations with respect to frame no.....	87
<b>Figure 3.13:</b> (a-f) NCC variations with respect to frame no.....	89
<b>Figure 3.14:</b> (a-f) PSNR variations with respect to frame no. ....	90
<b>Figure 3.15:</b> (a-f) NAE variations with respect to frame no.....	92
<b>Figure 3.16:</b> (a-f) PCM variations with respect to frame no.....	93
<b>Figure 4.1:</b> Block Diagram of the Proposed Method.....	107
<b>Figure 4.2:</b> Sub-block Diagram of the proposed approach.....	108
<b>Figure 4.3:</b> Segmentation results for People video sequence. ....	115

<b>Figure 4.4:</b> Segmentation results for Intelligent Room video sequence. ....	116
<b>Figure 4.5:</b> Segmentation results for One Step video sequence.....	117
<b>Figure 4.6:</b> Segmentation results for Camera2_070605 video sequence. ....	118
<b>Figure 4.7:</b> Segmentation results for highwayI_raw video sequence .....	119
<b>Figure 4.8:</b> Segmentation results for 4917-5_70 video sequence .....	120
<b>Figure 4.9:</b> Block Diagram of the DBMSS.....	134
<b>Figure 4.10:</b> Sub-block Diagram of the DBMSS .....	135
<b>Figure 4.11:</b> Wavelet decomposition of image from Venice-3 video sequence. ....	139
<b>Figure 4.12:</b> Segmentation results for high-view video sequence. ....	143
<b>Figure 4.13:</b> Segmentation results for venice-3 video sequence.....	145
<b>Figure 4.14:</b> Segmentation results for venice-7 video sequence.....	146
<b>Figure 4.15:</b> Segmentation results for Ir-2 video sequence.....	147
<b>Figure 5.1:</b> Object silhouette motion history in a video frame .....	158
<b>Figure 5.2:</b> Block diagram of the proposed method.....	159
<b>Figure 5.3:</b> The spatio-temporal MHI based template formation. ....	165
<b>Figure 5.4:</b> MHIs of different activities by the proposed method.....	165
<b>Figure 5.5:</b> Recognition of Activities in our own database.....	170
<b>Figure 5.6:</b> Recognition of Activities in KTH database.....	175
<b>Figure 5.7:</b> Recognition of Activities in i3DPost multi-view dataset .....	178
<b>Figure 5.8:</b> Recognition of Activities with MSR action recognition database .....	182
<b>Figure 5.9:</b> Recognition of Activities in VideoWeb Multi-view dataset .....	186
<b>Figure 5.10:</b> Recognition of Activities in WVU multi-view human action recognition dataset.....	189

<b>Figure 6.1:</b> The block diagram of the proposed human activity recognition system ..	198
<b>Figure 6.2:</b> Sequence of key poses of walking activity in some selected frames .....	203
<b>Figure 6.3:</b> Activity boundary definitions .....	203
<b>Figure 6.4:</b> Circularly symmetric neighbor sets for different $(P, R)$ . .....	205
<b>Figure 6.5:</b> Recognition of activities in our own database .....	210
<b>Figure 6.6:</b> Recognition of Activities in VideoWeb Multi-view dataset.....	214
<b>Figure 6.7:</b> Recognition of Activities in i3DPost multi-view dataset.....	218
<b>Figure 6.8:</b> Recognition of Activities in WVU multi-view human action recognition dataset .....	222
<b>Figure 6.9:</b> Recognition of Activities with MSR action recognition database .....	226
<b>Figure 6.10:</b> Recognition of Multiple Activities in i3DPost multi-view dataset.....	229
