
ACKNOWLEDGEMENT

This thesis is a conclusion of my whole Ph. D. study. This period of study is a both painful and enjoyable experience. It is just like climbing a high peak step by step. At the end of my thesis, I would like to thank all those people who made this thesis possible and an unforgettable experience for me. Though it will not be tough to express my gratitude in words to all those people who helped me, I would still like to give my sincere thanks to all these peoples.

First of all, I take this opportunity to express my deepest sense of gratitude and indebtedness to my respected supervisor, Dr. Manoj Kumar Meshram for his sagacious, guidance, promotion, encouragement, and sparing invaluable time for thorough editing of the thesis without which the present research work could not have been completed.

My profound gratitude to Prof. S. Jit, Head, Department of Electronics Engineering, Indian Institute of Technology (BHU), Varanasi for providing effective management, necessary facilities and valuable suggestions for success of this work.

I would also like to thank Prof. S. P. Singh for his valuable suggestions during this research work. I can understand not only the theory but also the practical applications, which help me exploit deeply the research knowledge. I am also grateful for Prof. P. K. Jain, who really facilitate me the measurement system during the research period. I would like to express my thank Prof. B. R. Vishvakarma, Prof. K. P. Singh, Prof. R. U. Khan, and Dr. Amit Kumar Singh for their endless suggestions and co-operation during the research period. I would like to record my grateful thanks all faculty members and scientists of the Electronics Engineering Department, Indian Institute of Technology (Banaras Hindu University), Varanasi for their academic guidance and encouragement.

I am also thankful to Mr. S. N. Mishra of PCB lab for his kind co-operation during the fabrication of the antennas. I am thankful to Mr. Jayram, Senior Laboratory Assistant and Mr. Bahadur Lal, Laboratory Attendant of microwave lab, for their kind help during the antennas measurement. I would like to express my gratitude to Dr. B. Jha for their discussions and help during experimental verification of the antennas. I would also like to thank Mr. Keshav Prasad, Mr. Umesh Joshi, Mr. K. K. Srivastava, and all office staffs for their help in all the way.

I would like to express my warm appreciation to Mr. Pradutt Kumar Bharti and Mr. Gaurav Kumar Pandey for their association and friendship. Fruitful interactions with

them helped me a lot in accomplishing my tasks. My special thanks to Mr. Mayank Agrawal and Mr. Bhaskarareddy Meruva for their help in antenna simulations and fruitful discussions during the research period. I have deep sense of appreciation for Mr. Madan Singh Chauhan, Mr. Mirgender Kumar, Mr. Vinod Kumar Chaudhary, Mr. Sunny, Ms. Soni Singh, Ms. Gargi Dixit, Ms. Situ Rani Patre, Mr. Sarthak Singhal, Mr. Veer Singh Gangwar, Mr. Rajesh Singh, Mr. Bhagirath Sahu, and Mr. Kunal Singh. Thanks to all my nearest and dearest friends Mr. Ranveer Singh, Mr. Sandip Kumar Singh, Mr. Vivek Kumar Singh, Mr. Ashutosh Singh, and Mr. Ashutosh Singh Chauhan. My sincere thanks go to all the college friends who are with me during B. Tech. course, who encourage me to work hard and to continue pursuing a Ph.D. thesis.

Last but not least, I wish to extend my outmost sense of respect to my parents Mr. Sudama Singh and Mrs. Shanti Devi and all my family members whose are the backbone and origin of my happiness. Their love and affection, blessing, and moral support without complaint or regret has enabled me to complete the work. Especially, I expressed my thanks to my elder brother Dr. Ravi Shankar Singh and Bhabhi Mrs. Maya for their guidance and motivation during research period. Also, I thank to my lovely nephew Gungun and Babu for their love and happiness.

Finally, I praise God, the almighty, merciful and passionate, for providing me this opportunity and granting me the capability to proceed successfully.

(HARI SHANKAR SINGH)
