<b>Chapter</b>	<b>Title</b>	<b>Page No.</b>
<b>Chapter 1</b>	<b>INTRODUCTION</b>	<b>1-13</b>
	1.1 General	1
	1.2 Background and motivation	6
	1.3 Research Objectives	10
	1.4 Thesis structure	12
<b>Chapter 2</b>	<b>LITERATURE REVIEW</b>	<b>14-37</b>
	2.1 Introduction	14
	2.2 River thermal pattern variation and its impact on the river ecosystem	15
	2.3 Factors influencing the river temperature	17
	2.3.1 Effect of anthropogenic disturbances	17
	2.3.2 Effect of river geomorphology	20
	2.3.3 Effect of global warming	21
	2.4 River thermal pattern and river-basin temperature fluctuation scenario in context to Indian rivers	23
	2.5 Application of the satellite imageries for river temperature detection	25
	2.6 Description of river Ganga	30
	2.6.1 General illustration of river Ganga	30
	2.6.2 Climate	32
	2.6.3 Hydrogeology and Geomorphology	32
	2.6.4 Biodiversity	36
	2.7 Research gap	37
	2.8 Summary	37

<b>Chapter 3</b>	<b>PERIODIC MONITORING OF RIVER THERMAL PATTERN USING SATELLITE IMAGES</b>	<b>38-78</b>
3.1	Introduction	38
3.2	Study area description	41
3.2.1	Climate	43
3.2.2	Land use/Land cover (LU/LC) pattern	44
3.3	Data	45
3.3.1	Satellite data	45
3.3.2	Air temperature	47
3.4	Methodology	50
3.4.1	Atmospheric correction	50
3.4.2	Creating the water mask	51
3.4.3	Surface water temperature calculation	52
3.5	Results	54
3.5.1	Estimated Water Temperature	54
3.5.2	Temporal and longitudinal variation of river thermal profile	60
3.5.3	Relationship between air temperature, LANDSAT-7&8 satellite calculated temperature	72
3.6	Discussion	74
<b>Chapter 4</b>	<b>IMPACT OF URBAN STRETCH ON THERMAL PATTERN OF RIVER</b>	<b>79-102</b>
4.1	Introduction	79
4.2	Data	83
4.3	Materials and method	84
4.3.1	portable thermal sensor	85
4.4	Results	87
4.4.1	Validation of Estimated Water Temperature	87
4.4.2	Spatio-temporal Variation of River Thermal Profile	89

4.5 Discussion	100
<b>Chapter 5 IMPACT OF MINIMAL HUMAN INTERACTION ON RIVER THERMAL PATTERN FLUCTUATION</b>	<b>103-124</b>
5.1 Introduction	103
5.2 Data	108
5.2.1 Meteorological datasets	108
5.2.2 Satellite imagery datasets	109
5.3 Methodology adopted for this analysis	110
5.4 Results	111
5.4.1 Statistical representation of river temperature	111
5.4.2 Changing patterns of river temperature for Varanasi stretch	116
5.5 Discussion	121
5.5.1 Analysis of the spatio-temporal change in river temperature	121
5.5.2 Analysis of the river temperature fluctuations due to lockdown imposed in the second COVID-19 wave in the summers of 2021	123
5.5.3 Special emphasis for the Varanasi stretch	123
<b>Chapter 6 GEOMORPHIC CONTROLS OF LANDSAT-BASED THERMAL PATTERNS</b>	<b>125-159</b>
6.1 Introduction	125
6.2 Data	131
6.3 Materials and methods	132
6.3.1 Extraction of flow channel and sandbars from Image Classification	134
6.3.2 Removal of the mixed pixels and Temperature profile extraction	135
6.3.3 Field thermal measures for validating thermal imagery	137
6.3.4 Additional variables	140

6.4 Results	143
6.4.1 Space and time variability of river temperature	143
6.4.2 Spatial thermal pattern variation with river geomorphological parameters	147
6.5 Discussion	154
6.5.1 Analysis of the river temperature with geomorphological parameters at some specific regions	154
<b>Chapter 7 GLOBAL WARMING IMPACT ON RIVER THERMAL PATTERN IN FUTURE</b>	<b>160-195</b>
7.1 Introduction	160
7.2 Data	167
7.2.1 LANDSAT datasets	167
7.2.2 ERA 5 datasets	168
7.2.3 Visible Infrared Imaging Radiometer Suite (VIIRS) Day/Night Band (DNB) datasets	168
7.2.4 In-situ datasets	169
7.3 Methodology adopted for this work	169
7.3.1 Air temperature calculation using ERA 5 Datasets	169
7.3.2 Future prediction of parameters	170
7.4 Results	177
7.4.1 Statistics for the in-situ measurements and satellite data validation	177
7.4.2 Air temperature pattern and future trend	179
7.4.3 LSTM model validation and the future trend prediction	182
7.5 Discussion	192
7.5.1 Analysis of the elevated river temperature in the study stretch	192
7.5.2 Impact of global warming on river Ganga and over the Ganga basin	194

<b>Chapter 8 FINDING AND CONCLUSION</b>	<b>196-213</b>
8.1 Introduction	196
8.2 Specific conclusion of each objective	197
8.2.1 Conclusion of the objective achieved in Chapter 3	197
8.2.2 Conclusion of the objective achieved in Chapter 4	198
8.2.3 Conclusion of the objective achieved in Chapter 5	199
8.2.4 Conclusion of the objective achieved in Chapter 6	200
8.2.5 Conclusion of the objective achieved in Chapter 7	201
8.3 Findings of this research	203
8.4 Limitations of this research work	210
8.5 Future scope of the work	211
8.6 Summary of the research work and the final conclusion	212
<b>REFERENCES</b>	<b>214-239</b>
<b>APPENDICES</b>	<b>240-250</b>

# LIST OF FIGURES
