## ***Modern research is not a one man contribution.***

*It is rather the product of whole community i.e. the institute, the teacher, the fellow student, the coordinators and the society at large. No contribution as such can be claimed absolutely original and novel because the whole academic heritage has evolved the situation under which the circumstances of a contribution emerge. I feel, therefore, to advance my gratitude to all those dignities commoners who, anyhow, directly and indirectly are connected with this research work.*

*First of all, I am highly indebted to my advisor Prof. P. C. Pandey for introducing me to this exciting field and giving me the opportunity, responsibility, guidance, and freedom to work in this area, also his thorough readings and insightful commentary on multiple drafts always challenging me to think more critically, and for his mentorship and support, without which the present form of research work was quite impossible.*

*I would like to express my gratitude to Prof. M. A. Quraishi, Head of the Department for providing me required facilities. Successful completion of this research would have been possible with the support and cooperation of the members of RPC, thanks to Prof. M. A. Quraishi, ( Head, Department of Chemistry) Prof. Y. C. Sharma (Department of Chemistry) and Prof. Rajeev Prakash ( material science and engineering) was invaluable and deserves special mention.*

*I am thankful to all members of Prof. Pandey's group, Ashish, Richa, Digvijay and Gunjan for sharing their knowledge and creating enjoyable lab atmosphere. Special thanks to the past students in Prof. Pandey's lab, Dr. Vandana Singh and Dr. Dheeraj S. Chauhan for the valuable discussions and help.*
