

## List of figures

Figures	Page
Fig.2.1 A schematic cross section of sedimentary ocean basin	17
Fig.2.2 Plot of $\eta(x,t)$ vs. $x$ for $\nu=1.0$	26
Fig.2.3 Plot of $\eta(x,t)$ vs. $x$ for $\nu=2.0$	26
Fig.2.4 Plot of $s(t)$ vs. $t$ for $\nu=1.0$	27
Fig.2.5 Plot of $s(t)$ vs. $t$ for $\nu=2.0$	27
Fig.2.6 Plot of $s(t)$ vs. $t$ at $\nu=1.0$ for $\alpha = 8 / 9$	28
Fig.2.7 Plot of $s(t)$ vs. $t$ at $\nu=1.0$ for $\alpha = 6/7$	28
Fig.2.8 Plot of $s(t)$ vs. $t$ at $\nu=1.0$ for $\alpha = 4/5$	29
Fig.2.9 Plot of $s(t)$ vs. $t$ at $\nu=1.0$ for $\alpha = 2/3$	29
Fig.2.10 Plot of $s(t)$ vs. $t$ for $q = 0.5$ and $\nu = 1.0$	30
Fig.2.11 Plot of $s(t)$ vs. $t$ for $q = 1.0$ and $\nu = 1.0$	30
Fig.3.1 A schematic cross section of a basin with no tectonic subsidence and sea level change	36
Fig.3.2 Plot of $\eta(x,t)$ vs. $x$ for $q=0.5$ , $\nu=2.0$ and $\gamma = 10$	44
Fig.3.3 Plot of $\eta(x,t)$ vs. $x$ for $q=0.5$ , $\nu=2.0$ and $\gamma = 15$	44
Fig.3.4 Plot of $s(t)$ vs. $t$ for $q=0.5$ , $\nu=2.0$ and $\gamma = 10$	45
Fig.3.5 Plot of $s(t)$ vs. $t$ for $q=0.5$ , $\nu=2.0$ and $\gamma = 15$	45
Fig.3.6 Plot of $s(t)$ vs. $t$ for $q = 0.5$ , $\nu=2$ and $\gamma = 15$	46
Fig.3.7 Plot of $s(t)$ vs. $t$ for $q = 1.5$ $\nu=2$ and $\gamma = 15$	46

Fig.3.8 Plot of $s(t)$ vs. $t$ for $q = 0.5, v=2$ and $\gamma = 15$	
47	
Fig.3.9 Plot of $s(t)$ vs. $t$ for $q = 1.5, v=2$ and $\gamma = 15$	47
Fig.4.1 Plot of $T(x,t)$ vs. $x$ for $\varepsilon = 0.5$ and $\omega = \pi/2$	
59	
Fig.4.2 Plot of $T(x,t)$ vs. $x$ for $\varepsilon = 1.0$	59
Fig.4.3 Plot of $s(t)$ vs. $t$ for $\varepsilon = 0.2$ and $\omega = \pi/4$	60
Fig.4.4 Plot of $s(t)$ vs. $t$ for $\varepsilon = 0.9$ and $\omega = \pi/4$	60
Fig.5.1 Plot of $s(t)$ vs. $t$ at $\alpha = 0.25, \beta = 0.75$ and $n = 0$	72
Fig.5.2 Plot of $s(t)$ vs. $t$ at $\alpha = 0.5, \beta = 1.0$ and $n = 0$	72
Fig.5.3 Plot of $s(t)$ vs. $t$ at $\alpha = 0.25, \beta = 0.75, n = 1$	73
Fig.5.4 Plot of $s(t)$ vs. $t$ at $\alpha = 0.5, \beta = 1.0$ and $n = 1$	73
Fig.5.5 Plot of $s(t)$ vs. $t$ at $\alpha = 0.25, \beta = 0.75$ and $n = 0$	74
Fig.5.6 Plot of $s(t)$ vs. $t$ at $\alpha = 0.5, \beta = 1.0$ and $n = 0$	74
Fig.6.1 Plot of $S(t)$ vs. $t$ at $\alpha = 0.75, \varepsilon = 0.05$ and $\eta = 0$	95
Fig.6.2 Plot of $S(t)$ vs. $t$ at $\alpha = 0.5, \varepsilon = 0.05$ and $\eta = 0$	95
Fig.6.3 Plot of $S(t)$ vs. $t$ at $\alpha = 0.5, \varepsilon = 0.1$ and $\eta = 0$	96
Fig.6.4 Plot of $S(t)$ vs. $t$ at $\alpha = 0.5, \varepsilon = 0.15$ and $\eta = 0$	96
Fig.6.5 Plot of $S(t)$ vs. $t$ for $\alpha = 0.5$ and $\eta = 0$	97
Fig.6.6 Plot of $S(t)$ vs. $t$ for $\alpha = 0.5$ and $\eta = 0.5$	97
Fig.6.7 Plot of $S(t)$ vs. $t$ at $\varepsilon = 0.25$ and $\eta = 0$	98
Fig.6.8 Plot of $S(t)$ vs. $t$ at $\varepsilon = 0.25$ and $\eta = 0.5$	98
Fig.6.9 Dependence of $S(t)$ on $t$ at $\alpha = 0.50$ and $\varepsilon = 0.3$	99
Fig.6.10 Dependence of $S(t)$ on $t$ at $\alpha = 1.0$ and $\varepsilon = 0.3$	99
