

Acknowledgement

During my years of stay in IIT (BHU), I have had the golden opportunity of meeting some wonderful people and now, I would take this opportunity to thank those who have made this dissertation possible.

My enormous gratitude and sincere thanks are extended to my supervisor Prof. V. N. Mishra his kind guidance, supportive encouragement through the years. I have learned much from his insight into science and the philosophy of research. His meticulous guidance never let me exhausted. The cherished memory of exceptional experience obtained during the course of the thesis work will always be exhilarating.

I am deeply indebted to my co-supervisor Dr. R. Dwivedi for introducing me to the field of research in microelectronics. I wish to express my special thanks to him for his academic and professional assistance imparted to me whenever needed.

I express my sincere thanks to my another co-supervisor Prof. R. R. Das for his expert comments and suggestions.

I am also thankful to Prof. S. Jit, Head, Department of Electronics Engineering, IIT (BHU), Varanasi for providing me the infrastructural facilities needed over the years.

I wish to extend my sincere thanks to my research committee members Prof. K. K. Shukla, Dr. R. U. Khan and all the department research committee members for their valuable suggestions and fruitful discussion during the entire period of my research.

I am immensely rejoiced to owe my deep sense of gratitude to Prof. K. P. Singh, Prof. S. P. Singh and Dr. M. K. Meshram for their constant encouragement.
