

ACKNOWLEDGEMENT

There have been so many person directly or indirectly helped me in the completing this research work. Starting with my supervisor *Dr Subir Das*, Associate Professor, Department of Mathematical sciences, Indian Institute of Technology (BHU), Varanasi, I would like to express my heartfelt gratitude to him for accepting me as his Ph.D. student and for his enthusiastic guidance, patience, continuous encouragement and for providing me the requisite facilities to carry out my research. Without his advice, guidance and support along the course of this Ph. D. program, this work could not have been done. I especially thank him for introducing me to a very exciting and fruitful research field–fractional calculus, sharing his vast knowledge and teaching me. I also learned from him which is much more than one could have expected from the supervisors.

I would like to express my sincere thanks to *Prof. O. P. Singh*, Head, Department of Mathematical Sciences and all the faculty members of the Department of Mathematical Sciences for their valuable suggestions and inspiring guidance throughout my research work. My heartfelt thank to *Prof. S. K. Pandey*, Convener, DPGC of the department and also the other members of DPGC *Prof. Rekha Srivastava, Dr Satwana Mukhopadhyay, Dr Ashokji Gupta and Dr Rajeev* for their kind support and continuous
