

Acknowledgments

First and foremost, I would like to express my deepest gratitude to my research supervisor Prof. Shri Ram, Former Head, Department of Mathematical Sciences, Indian Institute of Technology(BHU). He has so kindly directed this research, rendered continuous guidance and rigorous supervision, provided effective suggestions and spent long hours for discussing and reviewing the intricate aspects of this work. It would have been difficult for me to complete this thesis in the stipulated time without his close association, invaluable help and continuous support and co-operation.

I express my sincere thanks to my Co-supervisor Prof. L. P. Singh, Department of Mathematical Sciences , Indian Institute of Technology(BHU), for his kind whole-hearted support for carrying out my research.

I am extremely grateful to Prof. Om. P. Singh, Head, Department of Mathematical Sciences, Indian Institute of Technology(BHU) for providing me the requisite research facilities and everlasting support during the progress of the work.

I am also grateful to my RPC members Prof. B. N Dwivedi, Department of Applied Physics and Dr. Subir Das, Department of Mathematical Sciences, Indian Institute of Technology(BHU) for their stimulating help and criticism.

I would also like to to thank Prof. Rekha Srivastava , Prof. T. Som, Prof. S.K. Pandey, Dr. S. Mukhopadhyay, Dr. Rajeev, Dr. Vineet Singh, Dr. R. K. Pandey, Dr. A. Banerjee and other faculty members of the Department of Mathematical Sciences, Indian Institute of Technology(BHU) for their valuable suggestions and encouragement.

I am grateful to all the office staff of the Department and the authorities of Indian

Institute of Technology(BHU) Varanasi for their kind help during the period of my stay to complete the thesis work.

I would also like to thank my well-wisher Dr. Sushama Singh and her mother Ms. Sushela Singh for their lot of encouraged during my research work.

I must now thank my seniors Dr. Mohd. Zeyauddin and Dr. M. K. Verma for extending their helping hands, whenever it has been necessary.

I would also like to convey my thanks to all my friends especially Dr. Somnath Maiti, Mohan Singh Kushwaha, Shailendra Tiwari, Navin Jha, Chandrasheker Singh, Ghanshyam Prasad, Ms. Pooja Singh, Ms. Sarita Yadav, Ms. S.P. Ansari, with whom I have shared many exciting memorable moments of laughter and pure joy and helping me in various ways.

I wish to acknowledge my special thanks to Ms. S. Chandel and Mr. M . K. Singh, my colleagues, Department of Mathematical Sciences, Indian Institute Of Technology (BHU), India for constructive discussions and contribution. I am thankful to the researchers, working in the field of general relativity and Cosmology, whose works inspired me to carry out this present work.

I am thankful to the Indian Institute of Technology (BHU), Varanasi, India for financial support through a Research Fellowship.

Last but not least, it is a very pleasant privilege for me to acknowledge the continuous support and sacrifice of my beloved parents, Smt. Savita Devi and Shri Ramakant

Singh Yadav during the entire course of my higher studies. I am grateful to my brothers Rudra Pal Yadav, Indra Pal Yadav and my cute sister Abha Yadav, for their endearing support and affection.

I wish to thank my husband Mr. Vipin Kumar Yadav bring great joy to my life without his love and understanding I would not have completed this work.

Last but not the least, thanks to the almighty God for showing me the right path to complete this work.
