

# List of Figures

2.1	Hubble's parameter $H$ verses cosmic time $t$ , $\beta=0.2$ ; $\alpha=1$ ; $h=0.1$ . . . . .	41
2.2	Density $\rho$ verses cosmic time $t$ for model 1 with $\beta=0.2$ ; $\alpha=1$ ; $h=0.1$ . . .	41
2.3	Density $\rho$ verses cosmic time $t$ for model 2 with $\beta=0.2$ ; $\alpha=1$ ; $h=0.1$ . . .	42
5.1	The plot of volume $V$ verses cosmic time $t$ ,with suitable constant value .	89
5.2	The plot of Hubble parameter $H$ , scalar expansion $\theta$ and shear scale $\sigma$ verses cosmic time $t$ . . . . .	89
5.3	The plot of bulk viscous pressure $\bar{p}$ verses cosmic time $t$ . . . . .	90
5.4	The plot of string tension density $\lambda$ verses cosmic time $t$ . . . . .	90
5.5	The plot of energy density $\rho$ and particle energy density $\rho_p$ verses cosmic time $t$ ,with . . . . .	91
5.6	The plot of volume $V$ verses cosmic time $t$ ,with suitable constant value .	91
5.7	The plot of Hubble parameter $H$ , expansion scalar $\theta$ and shear scalar $\sigma$ verses cosmic time $t$ . . . . .	92
5.8	The plot of bulk viscous pressure $\bar{p}$ verses cosmic time $t$ ,with suitable constant value . . . . .	92
5.9	The plot of string tension density $\lambda$ verses cosmic time $t$ . . . . .	93

*List of Figures*

5.10	The plot of energy density $\rho$ and particle energy density $\rho_p$ verses cosmic time $t$ . . . . .	93
6.1	The plot of deceleration parameter $q$ verses cosmic time $t, \beta = \frac{3}{2}, \alpha = 1;$ . .	111
6.2	The plot of density $\rho$ verses cosmic time $t, \lambda = 1, \alpha = 1;$ . . . . .	111
6.3	The plot of bulk viscous pressure $\bar{p}$ verses cosmic time $t, \lambda = 1, \alpha = 1;$ . . .	112
6.4	The plot of Bulk viscosity coefficient $\zeta$ verses cosmic time $t, \lambda = 1, \alpha = 1;$ .	112
6.5	The plot of Energy density condition $\rho + p$ verses cosmic time $t, \lambda = 1, \alpha = 1;$ . . . . .	113
6.6	The plot of Hubble parameter $H$ verses cosmic time $t, \alpha = 1;$ . . . . .	113
6.7	The plot of expansion scalar $\theta$ verses cosmic time $t, \alpha = 1;$ . . . . .	114
6.8	The plot of shear scalar $\sigma$ verses cosmic time $t, \alpha = 1;$ . . . . .	114
6.9	The plot of density $\rho$ verses cosmic time $t, Q = 1, \lambda = 1, m = 0.5, \alpha = 1;$ . .	115
6.10	The plot of bulk viscous pressure $\bar{p}$ verses cosmic time $t, Q = 1, \lambda = 1, m = 0.5, \alpha = 1;$ . . . . .	115
6.11	The plot of Bulk viscosity coefficient $\zeta$ verses cosmic time $t, Q = 1, \lambda = 1, m = 0.5, \alpha = 1;$ . . . . .	116
6.12	The plot of Energy density condition $\rho + p$ verses cosmic time $t, Q = 1, \lambda = 1, m = 0.5, \alpha = 1;$ . . . . .	116
6.13	The plot of Hubble parameter $H$ (for second model) verses cosmic time $t, Q = 1, \alpha = 1;$ . . . . .	117
6.14	The plot of expansion scalar $\theta$ (for model second) verses cosmic time $t, Q = 1, \alpha = 1;$ . . . . .	117
6.15	The plot of shear scalar $\sigma$ verses cosmic time $t, Q = 1, \alpha = 1;$ . . . . .	118
7.1	The plot of scalar expansion $\theta$ verses cosmic time $t, m = 0.5; \lambda = 1; k = 1;$ . .	136
7.2	The plot of pressure $p$ verses cosmic time $t, m = 0.5; \lambda = 1; k = 1;$ . . . . .	136

*List of Figures*

7.3	The plot of density $\rho$ verses cosmic time $t$ , $m=0.5;\lambda=1;k=1$ ; . . . . .	137
7.4	The plot of $\theta$ verses cosmic time $t$ , $m=0.5;\lambda=1;k=1$ ; . . . . .	137
7.5	The plot of pressure $p$ verses cosmic time $t$ , $m=0.5;\lambda=1;k=1$ ; . . . . .	138
7.6	The plot of density $\rho$ verses cosmic time $t$ , $m=0.5;\lambda =1;k=1$ ; . . . . .	138
7.7	The plot of scalar expansion $\theta$ verses cosmic time $t$ , $m=0.5;\lambda=1;k=1$ ; . .	139
7.8	The plot of pressure $p$ verses cosmic time $t$ , $m=0.5;\lambda=1;k=1$ ; . . . . .	139
7.9	The plot of density $\rho$ verses cosmic time $t$ , $m=0.5;\lambda=1; k=1$ ; . . . . .	140
7.10	The plot of Scalar of expansion $\theta$ verses cosmic time $t$ , $m=0.5;\lambda=1;k=1$ ; . . . . .	140
7.11	The plot of pressure $p$ verses cosmic time $t$ , $m=0.5;\lambda=1;k=1$ ; . . . . .	141
7.12	The plot of density $\rho$ verses cosmic time $t$ , $m=0.5;\lambda=1;k=1$ ; . . . . .	141
