

LIST OF TABLES

Table 2.1: Brief description of various CBIR systems	21
Table 2.2: State-of-art methods for mammogram classification	36
Table 2.3: Confusion matrix to measure the performance of the classifiers	45
Table 3.1: Average precision of features using weighted similarity measure	67
Table 3.2: Class-wise comparative analysis of average precision.....	69
Table 3.3: Confusion matrix for proposed random forests framework (Wang database)	75
Table 3.4: Classification and retrieval performance for Wang database	76
Table 3.5: Confusion matrix for proposed classification framework using random forests classifier on OT database	77
Table 3.6: Classification and retrieval performance for OT database	78
Table 3.7: Statistical colour moments.....	80
Table 3.8: Confusion matrix of proposed supervised model for Wang database	91
Table 3.9: Comparing with different conventional approaches for Corel Database	97
Table 3.10: Retrieval speedup for Wang database	97
Table 3.11: Confusion matrix of proposed supervised model for OT database	98
Table 3.12: Retrieval Speedup for OT Database	102
Table 4.1: Confusion matrix for mammogram classification	127
Table 4.2 Performance analysis of proposed mammogram classification model.....	127
Table 4.3: Comparative analysis of the proposed method with other state-of-art methods	127
Table 4.5: CCA and retrieval performance of the proposed method.....	130
Table 5.1: Segmentation performance for mammograms having <i>Contrast</i> >1.8.....	145
Table 5.2: Segmentation performance for mammograms having <i>Contrast</i> <1.8.....	145

Table 5.3: Retrieval speedup in various cases.....	155
Table 5.4: Criteria for measurement of performance evaluation of CBIR.....	155
