<b>CERTIFICATE.....</b>	<b>iii</b>
<b>DECLARATION BY THE CANDIDATE .....</b>	<b>iv</b>
<b>COPYRIGHT TRANSFER CERTIFICATE .....</b>	<b>v</b>
<b>ACKNOWLEDGEMENT .....</b>	<b>vi</b>
<b>ABSTRACT.....</b>	<b>viii</b>
<b>LIST OF TABLES .....</b>	<b>xvi</b>
<b>LIST OF FIGURES.....</b>	<b>xviii</b>
<b>ABBREVIATIONS AND SYMBOLS USED.....</b>	<b>xxii</b>
<b>CHAPTER 1</b>	
<b>Introduction.....</b>	<b>1</b>
1.1 Background.....	1
1.2 Problem Statement .....	11
1.3 Organization of the Thesis .....	15
<b>CHAPTER 2</b>	
<b>Literature Review .....</b>	<b>17</b>
2.1 Overview .....	17
2.2 Impact of Climate Change .....	17
2.3 Downscaling.....	23
2.3.1 Dynamic downscaling .....	23
2.3.2 Statistical downscaling .....	24
2.3.2.1 Statistical Downscaling Model (SDSM) .....	27
2.4 Trend Characterization of Meteorological Variable and Climatic Extreme .....	29
2.5 Climate Extremes .....	33
2.6 Drought and its Classification .....	35
2.6.1 Drought indices .....	39
2.6.2 Drought characterization .....	45
2.6.3 Drought characterization over India under observed and changing climate scenarios .....	46
2.7 Summary .....	49
<b>CHAPTER 3</b>	
<b>Study Area and Data Used.....</b>	<b>52</b>
3.1 Overview .....	52
3.2 Characterization of the Study Area .....	53
3.2.1 Climate .....	54

3.3 Agroclimatic Zones .....	56
3.4 Geology .....	57
3.5 Meteorological Data Sources .....	58
3.5.1 Data used in SDSM .....	59
3.6 Software Used .....	60
3.6.1 Programming Tools .....	60
3.6.2 Statistical downscaling model (SDSM).....	61
3.6.3 Image processing & Geospatial analysis .....	61
3.7 Summary .....	62
<b>CHAPTER 4</b>	
<b>Methodology .....</b>	<b>64</b>
4.1 Overview .....	64
4.2 Trend Detection Methodology .....	64
4.2.1 Mann-Kendall Test .....	64
4.2.2 Sen's Slope Estimator.....	67
4.3 Pearson's Correlation Analysis .....	68
4.4 Drought Assessment Tools.....	69
4.4.1 Standardized Precipitation Index (SPI) .....	70
(i) Computation of SPI .....	71
4.4.2 Standardized Precipitation Evapotranspiration Index (SPEI) .....	74
(i) Estimation of PET by Thornthwaite method .....	75
(ii) Computation of SPEI.....	77
4.4.3 Drought Characterization and Run Theory .....	79
4.5 Evaluations of Concurrent Dry-Wet Event Occurrence.....	82
4.5.1 Dry and wet event characterization .....	83
4.5.2 Wet-Dry ratio (WD) .....	83
4.5.3 Dry-wet transition time.....	84
4.5.4 Dry-wet rapid transition time .....	84
4.6 Climate Change Projection.....	85
4.6.1 Input data for SDSM.....	88
4.6.2 Description of statistical downscaling model (SDSM) .....	91
4.7 Summary .....	96
<b>CHAPTER 5</b>	
<b>Evaluation of Temporal Variability of Meteorological Variable .....</b>	<b>98</b>
5.1 Overview .....	98

5.1.1 Temporal variability of annual and seasonal precipitation .....	98
5.1.2 Trend assessment of annual precipitation .....	99
5.1.3 Trend assessment of pre-monsoon precipitation .....	102
5.1.4 Trend assessment of monsoon precipitation .....	104
5.1.5 Trend assessment of post-monsoon precipitation .....	106
5.1.6 Trend assessment of winter precipitation .....	107
5.1.7 Trend assessment of temperature .....	109
5.1.8 Trend assessment potential evapotranspiration (PET) .....	111
5.2 Summary .....	113

## **CHAPTER 6**

### **Evaluation of Spatiotemporal Drought Characteristics using SPI and SPEI..... 115**

6.1 Overview .....	115
6.1.1 Temporal evaluation of SPI and SPEI at different timescales .....	116
6.1.2 Decadal change in the drought event .....	117
6.1.3 Spatiotemporal evaluation of drought trend .....	120
6.1.4 Spatiotemporal assessment of drought intensity .....	122
6.1.5 Spatiotemporal assessment of drought duration.....	123
6.1.6 Spatiotemporal assessment of frequency of occurrence.....	125
6.1.7 Temporal variations of drought station proportion .....	127
6.1.8 Consistency of monthly SPI and SPEI.....	131
6.2 Summary .....	132

## **CHAPTER 7**

### **Evaluation of Dry and Wet Events Characteristics and their Transition..... 137**

7.1.....	O
verview .....	137
7.1.1 Wet- dry event characteristics .....	138
7.1.2 Wet–dry ratio.....	144
7.1.3 Dry-wet transition time .....	146
7.1.4 Rapid transition event.....	147
<b>7.2 Summary</b> .....	150

## **CHAPTER 8**

### **Projection of Future Climate Change on Drought Using SDSM ..... 154**

8.1 Overview .....	154
8.2 Downscaling of the CanESM2 model data using the SDSM under the RCP scenarios .....	155

8.2.1	Changes in future monthly temperature.....	160
8.2.2	Changes in future monthly precipitation.....	168
8.3	Drought Characterization under Observed and Future Period.....	173
8.3.1	Projected change in the drought frequency .....	176
8.3.2	Projected change in the drought severity.....	180
8.3.3	Projected change in the drought duration .....	183
8.4	Summary .....	186
<b>CHAPTER 9</b>		
<b>Conclusion .....</b>		<b>188</b>
9.1	Overview .....	188
9.1.1	Changes in precipitation and temperature .....	190
9.1.2	Spatiotemporal meteorological drought characteristics assessment.....	191
9.1.3	Spatiotemporal assessment of concurrent occurrence of dry-wet event.....	194
9.1.4	Drought characteristics under changing climate scenarios.....	196
9.2	Major Contribution of the Thesis .....	199
9.3	Recommendation of Future Work .....	200
