

## ACKNOWLEDGEMENTS

---

First and foremost, I must pay my respectful reverence to the Supreme Personality of Godhead, *Lord Shri Krishna*, the most gracious, the most merciful.

I would like to express my sincere gratitude to my supervisor, Prof. A. K. Jha, Department of Mechanical Engineering, for their valuable guidance and consistent support without which this thesis would not be possible. I deeply thank Prof. Jha for his precious time and innumerable efforts spent on discussing my work and reviewing my papers. His fruitful discussions and valuable suggestions provided me with creative inspiration throughout my work.

I sincerely thank Prof. Sudipto Ghosh, Department of Metallurgical Engineering, IIT Kharagpur for his valuable time and discussions on the problem formulation and deep insight to the programming effort given in initial phase of my thesis work. I would also like to thank Dr. G. Subramaniam, IIT Kharagpur for his valuable time and discussions for setting the idea of the thesis work. Most sincere thanks to Dr. Arpan Halder, IIT Kharagpur for his programming effort and lot of time given for developing the base of this thesis work. Without him this work would not have at all be possible.

I would also like to express my deepest sense of gratitude to the members of the research committee: Prof. S. K. Sinha, Department of Mechanical Engineering, Prof. R. Manna, Department of Metallurgical Engineering for their valuable suggestions and comments during my course of research work.

I am also grateful to Prof. Rajesh Kumar, Convener, DPGC and Prof. A. P. Harsha, former Convener, DPGC of the Department of Mechanical Engineering for their righteous support during my research visit. I also like to express my sincere gratitude to Dr. D. Khan

for their humble suggestions and spiritual advices to keep my research spirit intact during the hard time of my thesis work.

I extend my special thank to the non-teaching staff in the department, Mr. Harishankar, Mr. Patel, Mr. Bharat, staff of CCIS for their consistent technical support during the thesis work. I will also thanks to the institute to provide me the computing facilities for completing the research work.

I avail this opportunity to express my gratitude to Mr. Rana Dutta, Deputy General Manager in ElectroSteel Castings Ltd., Dhanbad, for granting me full support for collecting data from the company and offering all support and help during my visit.

I deeply appreciate the efforts of Dr. Ambuj Sharma for checking and editing my thesis. I owe gratitude to my dear friends Mr. Khemraj, Mr. Bharat, Mr. Shushant, Mr. Harikishore, Mr. Ashish, Mr. Prashant, Mr. Arun, Mr. Gourav, Mr. Rajeev, Mr. Rabindra, Mr. Deepak, Mr. Neeraj and all others for their moral and technical support and friendly cooperation.

My warmest and deepest appreciation to my father and mother for their consistent encouragement and care, which I will always appreciate in my heart, and to my brother Priyank and all my family members for their endless love and unwavering support.

My acknowledgement would not be complete unless I express my heartfelt gratitude to my spiritual teacher H.H. Subhag Swami for his blessings and encouragement for completing this research work and giving me inspiration to work every day.

**Ankit Sharma**
