List of Figures	xii
Abbreviations	xiii
Symbols	xv
Preface	xvi
1 Introduction	1
1.1 Interval Analysis	2
1.2 Interval-valued Function	4
1.3 Interval Optimization Problem	5
1.4 Preliminaries	7
1.4.1 Interval Arithmetic	8
1.4.2 Basic Properties of Interval Analysis	10
1.4.3 Sequence of Intervals	11
1.4.4 Few Elements of Convex Analysis	15
1.4.5 Some Basic Definitions and Properties of Interval-valued Functions	16
1.5 Literature Survey	21
1.5.1 Literature on Interval Analysis	21
1.5.2 Literature on Calculus of Interval-valued Functions	23
1.5.3 Literature on Interval Optimization Problem	24
1.6 Objective of the Thesis	25
1.7 Organization of the Thesis	26
2 Ekeland's Variational Principle for Interval-valued Functions	29
2.1 Introduction	29
2.1.1 Motivation	30
2.1.2 Contribution	30
2.2 gH -continuity and gH -semicontinuity of Interval-valued Functions	31

2.3	Ekeland's Variational Principle and its Applications	43
2.4	Concluding remarks	50
3	Fréchet Subdifferential Calculus for Interval-valued Functions and its Applications in Nonsmooth Interval Optimization	51
3.1	Introduction	51
3.1.1	Motivation	52
3.1.2	Contribution	53
3.2	Calculus of gH -Fréchet subgradients	54
3.3	Necessary optimality conditions for IOPs with nondifferentiable IVFs	71
3.4	Concluding Remarks	80
4	Interval Variational Inequalities	83
4.1	Introduction	83
4.1.1	Motivation	84
4.1.2	Contribution	84
4.2	Stampacchia and Minty Interval Variational Inequalities	84
4.3	Relationship Between Interval Variational Inequalities and Interval Optimization	91
4.4	Concluding Remarks	94
5	Stampacchia and Minty Variational Inequalities for Interval-valued Functions and Their Relationship with Interval Optimization	95
5.1	Introduction	95
5.1.1	Motivation	96
5.1.2	Contribution	96
5.2	Interval variational inequalities	96
5.3	Relationship of IVIs with IOPs	111
5.4	Concluding Remarks	117
6	Conclusions and future scopes	119
6.1	General conclusions	119
6.2	Contributions of the thesis	120
6.3	Future scopes of studies	122
A	Appendix A	137
A.1	Proof of the Lemma 1.3	137
A.2	Proof of the Lemma 1.4	138
A.3	Proof of the Lemma 1.8	141
B	Appendix B	145

B.1 Proof of the Lemma 1.31	145
C List of Publications	147
