Preface xvii

1 Introduction 1
- 1.1 Motivation . . . 1
- 1.2 Group-Theoretical Concepts . . . 2
- 1.3 Graph-Theoretical Concepts . . . 5
- 1.4 Graphs Associated With Groups . . . 8
- 1.5 Literature Review . . . 10
- 1.6 Objective and Scope . . . 14
- 1.7 Outline of the Thesis . . . 15

2 Complement of Conjugate Graph 17
- 2.1 Structural Characterizations . . . 18
- 2.2 Hamiltonian-Like Properties . . . 24

3 Superpower Graphs of Finite Abelian Groups 31
- 3.1 Structure of Superpower Graph of any Finite Group . . . 32
- 3.2 Dominant Set . . . 33
- 3.3 Vertex Connectivity . . . 35
- 3.4 Hamiltonian-Like Properties . . . 38

4 Superpower Graphs of Some non-Abelian Finite Groups 45
- 4.1 Superpower Graphs of Dihedral Groups . . . 46
  - 4.1.1 Vertex connectivity . . . 47
  - 4.1.2 Edge connectivity . . . 55
  - 4.1.3 Hamiltonian property and its variations . . . 60

4.2 Superpower Graphs of Dicyclic Groups 63
4.2.1 Vertex connectivity 65
4.2.2 Hamiltonian property and its variations 72

5 Superpower Graphs of Finite Groups **73**
5.1 Structure of Superpower Graph of any Group 74
5.1.1 The order graph 74
5.1.2 Comparability graph 76
5.1.3 Eulerian property 77
5.1.4 Separating sets 78
5.2 Groups Having Elements of Exponent Order 80
5.2.1 Dominant set 81
5.2.2 Vertex connectivity 82
5.2.3 Hamiltonian-like properties 85

Bibliography **93**

List of Publications **99**
